Version Information

Attribute	Value
Agreement Number	LIT-2026-001
Version	7.3
Date	January 16, 2026
Validity	Until February 15, 2026
Classification	Confidential

Version History

Version	Date	Summary
7.0	2026-01-10	Initial proposal
7.1	2026-01-12	Added equity alignment, TBD validation
7.2	2026-01-14	Cash-only payment, increased to $100K
7.3	2026-01-16	Full legal upgrade (indemnification, stop-work, etc.)

Key Terms Summary

Term	Value
Total Fees	USD $100,000
Duration	14 weeks
Deliverables	24 Claude Code Skills
Payment Terms	NET 5
Late Fee	1.5%/month
Warranty	60 days
Liability Cap	Total fees paid
Termination Notice	14 days
Non-Solicitation	12 months
Confidentiality	2 years (Trade Secrets: indefinite)

Contact Information

Provider: Intent Solutions Jeremy Longshore, Principal Email: jeremy@intentsolutions.io

Client: Lit Protocol [Contact to be designated]

Execution Instructions

1. Review all documents in this packet
2. Complete Client information in Master Agreement preamble
3. Designate Product Owner per Appendix C
4. Sign Master Agreement signature page
5. Return signed agreement to Provider
6. Provider countersigns and returns fully executed copy

Notes

- All documents use consistent numbering and cross-references
- Appendix J (Equity) is non-binding and subject to separate execution
- This packet supersedes all prior proposals and negotiations
- Questions should be directed to jeremy@intentsolutions.io

Generated by Intent Solutions Agreement No. LIT-2026-001 | Version 7.3

SERVICES AGREEMENT

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

PARTIES

Provider: Intent Solutions Jeremy Longshore, Principal Email: jeremy@intentsolutions.io ("Provider" or "Intent Solutions")

Client: Lit Protocol [Legal Entity Name: _____] [Address: _____] ("Client" or "Lit Protocol")

RECITALS

WHEREAS, Client develops and operates Lit Protocol, a decentralized key management and compute network enabling programmable signing, encryption, and compute;

WHEREAS, Provider specializes in AI-powered developer tools and has expertise in building production-ready Claude Code skills and developer productivity solutions;

WHEREAS, Client desires to engage Provider to develop a suite of AI-powered developer skills to accelerate developer onboarding and adoption of Lit Protocol's PKP wallets and Lit Actions;

WHEREAS, the parties wish to set forth the terms and conditions under which Provider will perform such services;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

---

1. DEFINITIONS

1.1 "Acceptance" means Client's written confirmation that a Deliverable meets the Acceptance Criteria, or Deemed Acceptance as defined in Appendix B.

1.2 "Acceptance Criteria" means the specific functional and quality requirements for each Deliverable as set forth in Appendix A.

1.3 "Background IP" means any intellectual property owned by or licensed to a party prior to the Effective Date, or developed by a party independently of this Agreement.

1.4 "Change Order" means a written document signed by both parties that modifies the Scope of Work, timeline, or fees.

1.5 "Client Materials" means any materials, data, specifications, documentation, or other information provided by Client to Provider for use in performing the Services, including technical requirements and Lit Protocol SDK.

1.6 "Confidential Information" means any non-public information disclosed by one party to the other, whether orally or in writing, that is designated as confidential or that reasonably should be understood to be confidential.

1.7 "Defect" means a reproducible failure of a Deliverable to conform to its Acceptance Criteria when operated in a Supported Environment.

1.8 "Deemed Acceptance" has the meaning set forth in Appendix B, Section 2.4.

1.9 "Deliverables" means the specific work products to be delivered by Provider as described in Appendix A.

1.10 "Effective Date" means the date this Agreement is executed by both parties.

1.11 "Evidence Bundle" means the collection of artifacts demonstrating Deliverable completion as specified in Exhibit A.1.

1.12 "Fees" means the compensation payable to Provider as set forth in Section 5.

1.13 "Open Source Software" or "OSS" means software licensed under an Open Source Initiative-approved license.

1.14 "Phase" means a defined delivery period as set forth in Appendix A.

1.15 "Services" means the development services to be performed by Provider as described in this Agreement.

1.16 "Skill" means an individual Claude Code skill Deliverable conforming to the Skill Deliverable Standard in Exhibit A.1.

1.17 "Supported Environment" means Claude Code running on Provider-specified versions with Lit Protocol TypeScript SDK v6 or later.

1.18 "Third-Party Components" means software, libraries, or services owned by third parties and incorporated into the Deliverables.

1.19 "Trade Secret" means Confidential Information that derives independent economic value from not being generally known and is subject to reasonable efforts to maintain its secrecy.

1.20 "Work Product" means all Deliverables, documentation, code, and other materials created by Provider specifically for Client under this Agreement.

---

2. SCOPE OF WORK

2.1 Services. Provider shall perform the Services and deliver the Deliverables as described in **Appendix A: Scope and Deliverables**.

2.2 Project Objective. Provider will develop and deliver twenty-four (24) production AI skills for Claude Code that enable faster developer onboarding and increased adoption of Lit Protocol's PKP wallets and Lit Actions.

2.3 Phases. The Services shall be performed in three (3) Phases: - **Phase 1 (Foundation):** 6 Skills - Core PKP and Lit Action workflows - **Phase 2 (Power Features):** 11 Skills - Cross-chain, DeFi patterns, developer tools - **Phase 3 (Advanced):** 7 Skills - Token gating, analytics, debugging, Python SDK

2.4 Skill Deliverable Standard. Each Skill shall conform to the Skill Deliverable Standard set forth in **Exhibit A.1**.

2.5 Out of Scope. The following are expressly excluded from the Services: - Custom integrations beyond skill scope - API development or backend services - Infrastructure provisioning or management - Production support (available via separate agreement) - Security audits or penetration testing - Guaranteed security outcomes (see Appendix E)

2.6 Change Orders. Any modification to the Scope of Work that materially impacts timeline or cost requires a signed Change Order per Appendix B.

---

3. PROJECT TIMELINE

3.1 Duration. The total project duration is fourteen (14) weeks from the Effective Date, subject to Client meeting its obligations under Appendix C.

3.2 Phase Schedule.

Phase	Duration	Deliverables	Acceptance Window
Phase 1	Weeks 1-4	6 P0 Skills	5 business days
Phase 2	Weeks 5-10	11 P1 Skills	5 business days
Phase 3	Weeks 11-14	7 P2 Skills	5 business days

3.3 Milestones.

Milestone	Target	Success Criteria
Phase 1 Complete	Week 4	6 P0 skills delivered and accepted per Appendix B
Phase 2 Complete	Week 10	11 P1 skills delivered and accepted per Appendix B
Phase 3 Complete	Week 14	7 P2 skills delivered and accepted per Appendix B

3.4 Timeline Extensions. The project timeline shall be extended day-for-day for any delays caused by: - Client's failure to meet obligations under Appendix C - Suspension of Services due to non-payment under Section 5.8 - Force Majeure events under Section 13.7

---

4. DELIVERABLES AND ACCEPTANCE

4.1 Delivery. Provider shall deliver each Phase's Deliverables to the Client-designated GitHub repository along with an Evidence Bundle per Exhibit A.1.

4.2 Delivery Notice. Upon completion of each Phase, Provider shall send written Delivery Notice to Client specifying: - Deliverables included - Repository location - Evidence Bundle location - Start of Acceptance Window

4.3 Acceptance Process. Acceptance shall follow the process set forth in **Appendix B: Acceptance and Change Control**.

4.4 Review Period. Client shall have five (5) business days from Delivery Notice to: - Accept the Deliverables in writing; or - Provide written rejection specifying Defects with reference to Acceptance Criteria

4.5 Rejection Requirements. A valid rejection must include: - Specific Deliverable(s) rejected - Detailed description of Defects - Reference to Acceptance Criteria not met - Contact information for follow-up

4.6 Deemed Acceptance. If Client fails to provide written acceptance or valid rejection within the Review Period, the Deliverables shall be deemed accepted.

4.7 Revision Rounds. Provider shall have up to two (2) rounds to cure any valid Defects. Additional revision rounds require a Change Order.

4.8 Rejection Limitations. Client may not reject Deliverables based on: - General dissatisfaction without specific Defects - Preference or style not specified in Acceptance Criteria - Functionality not in the original Scope of Work

---

5. FEES AND PAYMENT

5.1 Total Fees. Client shall pay Provider a total of **USD $100,000.00** for the Services, payable in accordance with the Payment Schedule.

5.2 Payment Schedule.

Milestone	Amount	%	Trigger
Contract Signing	$25,000	25%	Upon execution, before work begins
Phase 1 Complete	$25,000	25%	Upon Acceptance of P0 Skills
Phase 2 Complete	$30,000	30%	Upon Acceptance of P1 Skills
Phase 3 Complete	$20,000	20%	Upon Acceptance of P2 Skills

5.3 Invoice Timing. Provider shall invoice Client upon each Trigger event. The initial invoice for Contract Signing shall be issued upon execution.

5.4 Payment Terms. All invoices are due **NET 5** calendar days from invoice date.

5.5 Late Fees. Invoices not paid within five (5) calendar days of the due date shall accrue interest at **1.5% per month** (18% annually) on the unpaid balance, or the maximum rate permitted by law, whichever is lower.

5.6 Invoice Disputes. Client must notify Provider in writing of any invoice dispute within **five (5) business days** of invoice receipt. The notice must specify the disputed amount and basis for dispute. **Client shall pay all undisputed amounts by the due date** regardless of any pending dispute.

5.7 Collection Costs. In the event Provider must undertake collection efforts for overdue amounts, Client shall reimburse Provider for reasonable collection costs and attorneys' fees to the extent permitted by applicable law.

5.8 Suspension for Non-Payment.

(a) **Notice.** If any undisputed invoice remains unpaid for more than ten (10) calendar days past its due date, Provider may deliver written notice of intent to suspend Services.

(b) **Cure Period.** Client shall have three (3) business days from receipt of notice to cure the payment default.

(c) **Suspension.** If Client fails to cure, Provider may immediately suspend all Services and withhold all Deliverables until payment is received.

(d) **Timeline Extension.** The project timeline shall automatically extend day-for-day for the duration of any suspension.

(e) **Remobilization Fee.** If suspension exceeds ten (10) business days, Client shall pay a remobilization fee of **$2,500** before Services resume to compensate for context-switching and rescheduling.

5.9 License Conditioned on Payment. The license grants under Section 6 become effective only upon receipt of full payment for the applicable Deliverables. Until full payment is received, Provider retains all rights in the Deliverables.

5.10 Taxes. Fees are exclusive of all taxes. Client is responsible for all applicable taxes, excluding taxes based on Provider's income.

---

6. INTELLECTUAL PROPERTY

6.1 IP Model. Provider retains ownership of all Work Product. Client receives a broad license as set forth below.

6.2 Client License. Subject to full payment of applicable Fees, Provider grants Client a **perpetual, worldwide, royalty-free, non-exclusive, transferable, sublicensable** license to: - Use, copy, modify, and create derivative works of the Deliverables - Distribute the Deliverables internally and to Client's contractors and affiliates - Distribute the Deliverables as part of Lit Protocol's developer ecosystem, documentation, and SDK tooling - Sublicense the rights herein to end users and partners

6.3 Restriction. The license does not include the right to resell the Deliverables as a standalone commercial product separate from Lit Protocol's ecosystem.

6.4 Background IP. Each party retains all rights in its Background IP. To the extent Provider's Background IP is incorporated into Deliverables, Provider grants Client a license to such Background IP solely as necessary to use the Deliverables.

6.5 Client Materials. Client retains all rights in Client Materials. Client grants Provider a limited license to use Client Materials solely to perform the Services.

6.6 Provider Reuse Rights. Provider may: - Use generalized, non-confidential patterns and techniques in other engagements - Create portfolio and marketing materials (subject to Section 11) - Open-source generic components not containing Client Confidential Information

6.7 Third-Party Components. See **Appendix D: IP and OSS** for Third-Party Component terms.

6.8 Open Source Policy. See **Appendix D: IP and OSS** for OSS licensing requirements.

---

7. WARRANTIES

7.1 Warranty Period. Provider warrants that each Deliverable will conform to its Acceptance Criteria for a period of **sixty (60) days** from Acceptance ("Warranty Period").

7.2 Defect Definition. A "Defect" means a reproducible failure of a Deliverable to conform to its documented Acceptance Criteria when operated in a Supported Environment.

7.3 Warranty Remedy. During the Warranty Period, Provider shall, at its option: - Correct the Defect at no additional charge; - Provide a reasonable workaround; or - If correction is not commercially reasonable, refund a pro-rata portion of the Fees attributable to the defective Deliverable.

7.4 Exclusive Remedy. The remedies set forth in Section 7.3 are Client's **sole and exclusive remedy** for breach of the warranty in Section 7.1.

7.5 Warranty Exclusions. The warranty does not cover: - Changes to Lit Protocol SDK that break compatibility - Changes to Claude Code or Anthropic API that break compatibility - Modifications made by Client or third parties to Deliverables - Operation outside a Supported Environment - Third-party service outages or unavailability - Issues in Client's infrastructure or environment

7.6 SLA Response Times. Severity-based response times set forth in Appendix F apply only if Client has purchased a maintenance retainer. Without a maintenance agreement, warranty remediation follows commercially reasonable timelines.

7.7 Disclaimer. EXCEPT AS EXPRESSLY SET FORTH IN THIS SECTION 7, PROVIDER DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT.

---

8. LIMITATION OF LIABILITY

8.1 Consequential Damages Waiver. NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES, INCLUDING LOST PROFITS, LOST REVENUE, LOST DATA, OR BUSINESS INTERRUPTION, REGARDLESS OF THE THEORY OF LIABILITY.

8.2 Liability Cap. EXCEPT FOR THE CARVE-OUTS IN SECTION 8.3, PROVIDER'S TOTAL AGGREGATE LIABILITY UNDER THIS AGREEMENT SHALL NOT EXCEED THE TOTAL FEES ACTUALLY PAID BY CLIENT UNDER THIS AGREEMENT.

8.3 Carve-Outs. The limitations in Sections 8.1 and 8.2 do not apply to: - Fraud or intentional misconduct - Gross negligence - Breach of confidentiality obligations (subject to Section 8.4) - Indemnification obligations under Section 9

8.4 Confidentiality Breach Cap. Liability for breach of confidentiality obligations under Section 10 shall be limited to **two times (2x) the total Fees paid** under this Agreement, and shall be limited to direct damages only.

8.5 Consequential Waiver Applies to Carve-Outs. The waiver of consequential damages in Section 8.1 applies even to claims arising from the carve-outs in Section 8.3, except for fraud or intentional misconduct.

---

9. INDEMNIFICATION

9.1 Provider IP Indemnity. Provider shall defend, indemnify, and hold harmless Client from and against any third-party claim that the Deliverables (excluding Client Materials and Third-Party Components) infringe any U.S. patent, copyright, or trade secret ("IP Claim").

9.2 Provider Indemnity Conditions. Provider's obligations under Section 9.1 are conditioned on: - Client providing prompt written notice of the IP Claim - Client granting Provider sole control of the defense and settlement - Client providing reasonable cooperation at Provider's expense

9.3 Provider Indemnity Exclusions. Provider has no obligation under Section 9.1 for claims arising from: - Client's modification of Deliverables - Combination of Deliverables with non-Provider products or services - Client Materials - Use of Deliverables in violation of this Agreement - Deliverables modified per Client's specifications that caused the infringement

9.4 Provider Remedies. If Deliverables are subject to an IP Claim, Provider may, at its option and expense: - Procure the right for Client to continue using the Deliverables; - Modify the Deliverables

to be non-infringing; - Replace the Deliverables with non-infringing alternatives; or - If the foregoing are not commercially reasonable, refund a pro-rata portion of Fees for the affected Deliverables.

9.5 Client Indemnity. Client shall defend, indemnify, and hold harmless Provider from and against any third-party claim arising from: - Client Materials - Client's products or services incorporating the Deliverables - Client's use of Deliverables in violation of this Agreement

9.6 Exclusive IP Remedy. This Section 9 states the entire liability and exclusive remedy for intellectual property infringement claims.

---

10. CONFIDENTIALITY

10.1 Obligations. Each party shall: - Hold Confidential Information in strict confidence - Use Confidential Information only to perform this Agreement - Disclose Confidential Information only to personnel with a need to know who are bound by confidentiality obligations

10.2 Duration. Confidentiality obligations continue for **two (2) years** after disclosure of Confidential Information.

10.3 Trade Secrets. Notwithstanding Section 10.2, obligations regarding Trade Secrets shall continue for as long as the information qualifies as a Trade Secret under applicable law.

10.4 Exclusions. Confidential Information does not include information that: - Is or becomes publicly available without breach - Was known to the receiving party prior to disclosure - Is independently developed without use of Confidential Information - Is rightfully received from a third party without restriction

10.5 Compelled Disclosure. If required by law to disclose Confidential Information, the receiving party shall: - Provide prompt written notice to the disclosing party (to the extent permitted) - Reasonably cooperate in seeking a protective order - Disclose only the minimum information legally required

10.6 Return or Destruction. Upon termination or request, each party shall return or destroy Confidential Information, except: - Copies retained in automated backup systems - Copies retained as required by law - Working papers and files retained per professional standards

10.7 Injunctive Relief. Each party acknowledges that breach of confidentiality may cause irreparable harm for which monetary damages are inadequate. Either party may seek injunctive relief without posting bond.

---

11. MARKETING AND PUBLICITY

11.1 Prior Approval Required. Provider shall not use Client's name, logo, or trademarks in any marketing or publicity materials without Client's prior written approval.

11.2 Generic Description Permitted. Provider may include a generic description of the work performed (e.g., "Developed AI developer tools for a leading blockchain infrastructure company") without identifying Client, provided such description does not disclose Confidential Information.

11.3 Case Studies. Any case study or detailed project description requires Client's written approval of specific content before publication.

11.4 No Metrics Without Approval. Provider shall not disclose any Client metrics, usage data, or business information without Client's prior written approval.

11.5 Survival. This Section 11 survives termination of this Agreement.

---

12. NON-SOLICITATION

12.1 Non-Solicitation of Personnel. During the term of this Agreement and for **twelve (12) months** thereafter, neither party shall directly solicit for employment any personnel of the other party who were involved in performing or receiving the Services.

12.2 Exceptions. Section 12.1 does not prohibit: - General advertising or recruiting efforts not specifically targeted at the other party's personnel - Hiring personnel who initiate contact without solicitation - Hiring personnel whose employment with the other party ended more than six (6) months prior

---

13. TERMINATION

13.1 Termination for Convenience. Either party may terminate this Agreement with **fourteen (14) days** written notice.

13.2 Payment on Convenience Termination. Upon termination for convenience, Client shall pay: - Fees for all accepted Deliverables - Pro-rata Fees for work in progress - Any committed non-cancellable costs - **Wind-down fee:** 15% of the Fees attributable to unstarted Phases

13.3 Termination for Cause. Either party may terminate immediately upon material breach by the other party, provided: - Written notice specifying the breach is given - The breaching party fails to cure within **thirty (30) days** (or such breach is incapable of cure)

13.4 Non-Curable Breaches. Breaches incapable of cure include: - Breach of confidentiality - Misappropriation of intellectual property - Fraud or intentional misconduct

13.5 Effect of Termination. Upon termination: - Client shall pay all Fees due for Services performed through termination - Provider shall deliver all completed work and work in progress (to the extent paid) - Each party shall return or destroy the other's Confidential Information per Section 10.6

13.6 Survival. The following provisions survive termination: Sections 1 (Definitions), 5 (Fees, to the extent unpaid), 6 (IP), 7 (Warranties, for the Warranty Period), 8 (Limitation of Liability), 9 (Indemnification), 10 (Confidentiality), 11 (Marketing), 12 (Non-Solicitation), 14 (Dispute Resolution), and 15 (General Provisions).

13.7 Force Majeure. Neither party shall be liable for delays or failures due to circumstances beyond reasonable control, including natural disasters, war, terrorism, pandemic, government action, or internet or telecommunications failures. The affected party shall provide prompt notice and use reasonable efforts to mitigate the impact.

---

14. DISPUTE RESOLUTION

14.1 Escalation. Before initiating formal dispute resolution, the parties shall attempt to resolve disputes through good-faith negotiation between executives with authority to settle.

14.2 Arbitration. Any dispute not resolved through negotiation shall be settled by binding arbitration under the **JAMS Streamlined Arbitration Rules** in **San Francisco, California**.

14.3 Attorneys' Fees. The prevailing party shall be entitled to recover reasonable attorneys' fees and costs.

14.4 Provisional Remedies. Either party may seek provisional remedies (e.g., injunctive relief) from any court of competent jurisdiction without waiving the right to arbitration.

---

15. GENERAL PROVISIONS

15.1 Entire Agreement. This Agreement, including all Appendices and Exhibits, constitutes the entire agreement between the parties and supersedes all prior negotiations, representations, or agreements.

15.2 Amendment. This Agreement may only be amended by a written instrument signed by both parties.

15.3 Severability. If any provision is held unenforceable, the remaining provisions continue in full force and effect.

15.4 Waiver. Failure to enforce any provision does not waive the right to enforce it later.

15.5 Assignment. Neither party may assign this Agreement without written consent, except to an acquirer of substantially all of the party's assets or equity.

15.6 Notices. Notices shall be in writing and delivered by: - Email to the addresses in the preamble (effective upon confirmed receipt); or - Overnight courier (effective upon delivery)

15.7 Independent Contractor. Provider is an independent contractor. Nothing in this Agreement creates an employment, agency, partnership, or joint venture relationship.

15.8 Governing Law. This Agreement shall be governed by the laws of the **State of California**, without regard to conflict of laws principles.

15.9 Counterparts. This Agreement may be executed in counterparts, each of which is an original.

---

16. PROPOSAL VALIDITY

This Agreement and the pricing herein are valid until **February 15, 2026**. After this date, Provider reserves the right to re-estimate pricing and availability.

APPENDICES AND EXHIBITS

The following documents are incorporated by reference:

- **Appendix A:** Scope and Deliverables
- **Appendix B:** Acceptance and Change Control
- **Appendix C:** Client Responsibilities and Dependencies
- **Appendix D:** IP and OSS
- **Appendix E:** Security Boundaries
- **Appendix F:** Support and SLA
- **Appendix G:** Rate Card and Change Fees
- **Appendix H:** Legal Terms (Reserved for Supplemental Terms)
- **Appendix I:** Marketing and Publicity (Reserved)
- **Appendix J:** Equity Incentive Terms
- **Appendix K:** Full Audit Table
- **Exhibit A.1:** Skill Deliverable Standard

SIGNATURES

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date last signed below.

PROVIDER: Intent Solutions

Signature: _____

Name: Jeremy Longshore

Title: Principal

Date: _____

CLIENT: Lit Protocol

Signature: _____

Name: _____

Title: _____

Date: _____

Agreement No. LIT-2026-001 | Version 7.3 | Generated by Intent Solutions

APPENDIX A: SCOPE AND DELIVERABLES

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

A.1 PROJECT OBJECTIVE

Provider will develop and deliver twenty-four (24) production AI skills for Claude Code that:

1. Provide **guided workflows** for common Lit Protocol tasks
2. Enable **code generation** from natural language requests
3. Include **templates compliant with Lit Protocol SDK v6+ documentation**
4. Deliver **error handling guidance** per Lit Protocol troubleshooting documentation

Deliverable Standard: Each Skill is a complete, tested, documented package conforming to the Skill Deliverable Standard in Exhibit A.1.

A.2 PHASE 1: FOUNDATION (P0) - 6 SKILLS

Description: Core Lit Protocol functionality for immediate developer productivity.

Duration: 4 weeks (Weeks 1-4)

Priority: P0

Deliverables

#	Skill Name	Description	Acceptance Criteria
1	PKP Wallet Setup	Create and configure Programmable Key Pairs	Skill generates working PKP wallet configuration code
2	Lit Action Builder	Build and deploy Lit Actions	Skill generates valid Lit Action code deployable to network
3	Session Signature Manager	Manage session keys and expiration	Skill generates session management code with configurable expiration
4	Auth Method Configuration	Configure OAuth, Passkeys, custom auth	Skill generates authentication configuration for specified methods
5	Access Control Conditions	Define encryption/decryption conditions	Skill generates valid access control condition objects
6	Encrypt/Decrypt Workflows	End-to-end encryption patterns	Skill generates complete encrypt/decrypt workflow code

Phase 1 Acceptance Checklist

- ☐ All 6 skills delivered to designated repository
- ☐ Each skill conforms to Skill Deliverable Standard (Exhibit A.1)
- ☐ Each skill includes Evidence Bundle
- ☐ All acceptance criteria satisfied

☐ Documentation complete and accurate

A.3 PHASE 2: POWER FEATURES (P1) - 11 SKILLS

Description: Advanced capabilities for serious Lit Protocol integrations.

Duration: 6 weeks (Weeks 5-10)

Priority: P1

Deliverables

#	Skill Name	Description	Acceptance Criteria
7	Cross-Chain Signing	Unified signing across EVM and non-EVM	Skill generates cross-chain signing code for specified chains
8	Bridge Orchestration	Orchestrate cross-chain transfers	Skill generates bridge workflow code with status tracking
9	Multi-Chain Wallet Manager	Manage PKP wallets across chains	Skill generates multi-chain wallet management code
10	PKP DEX Aggregator*	Optimal swaps with MEV protection patterns	Skill generates DEX interaction code with MEV mitigation
11	Yield Optimizer	Automated yield farming patterns	Skill generates yield optimization strategy code
12	Decentralized Limit Orders	Condition-based order execution	Skill generates limit order execution code
13	MEV Protection*	Flashbots integration patterns	Skill generates MEV protection patterns and configurations
14	Lit Action Security Auditor*	Security review patterns and checklists	Skill generates security audit checklists and review patterns
15	Local Dev Environment	Local testing and simulation	Skill generates local development environment configuration
16	Chronicle Manager	Capacity Credits management	Skill generates Chronicle capacity credit management code
17	TypeScript SDK Helper	Type-safe code generation	Skill generates TypeScript code with proper type annotations

Skills marked with have security scope limitations. See Appendix E.*

Phase 2 Acceptance Checklist

☐ All 11 skills delivered to designated repository
☐ Each skill conforms to Skill Deliverable Standard (Exhibit A.1)
☐ Each skill includes Evidence Bundle
☐ All acceptance criteria satisfied
☐ Documentation complete and accurate
☐ Security disclaimers included for marked skills

A.4 PHASE 3: ADVANCED (P2) - 7 SKILLS

Description: Specialized capabilities for advanced use cases.

Duration: 4 weeks (Weeks 11-14)

Priority: P2

Deliverables

#	Skill Name	Description	Acceptance Criteria
18	Token Gated Access	NFT/token holder verification	Skill generates token gating verification code
19	Private Transaction Builder*	Private mempool submission patterns	Skill generates private transaction submission code
20	PKP Usage Analytics	Usage tracking and reporting	Skill generates analytics tracking code and dashboards
21	Network Health Monitor	Lit network status monitoring	Skill generates network health monitoring code
22	Key Rotation Strategies	PKP key rotation and migration	Skill generates key rotation workflow code
23	Lit Action Debugger	Debugging and profiling	Skill generates debugging utilities and profiling code
24	Python SDK Helper	Python code generation	Skill generates Python SDK code with proper patterns

Skills marked with have security scope limitations. See Appendix E.*

Phase 3 Acceptance Checklist

- ☐ All 7 skills delivered to designated repository
- ☐ Each skill conforms to Skill Deliverable Standard (Exhibit A.1)
- ☐ Each skill includes Evidence Bundle
- ☐ All acceptance criteria satisfied
- ☐ Documentation complete and accurate
- ☐ Security disclaimers included for marked skills

A.5 OUT OF SCOPE

The following are expressly **excluded** from this engagement:

Item	Rationale
Custom integrations beyond skill scope	Requires separate SOW

Item	Rationale
API development or backend services	Not part of skill development
Infrastructure provisioning or management	Client responsibility
Production support	Available via maintenance agreement (Appendix F)
Security audits or penetration testing	Skills provide patterns only; professional audit recommended
Guaranteed security outcomes	Skills are developer tools, not security products (Appendix E)

A.6 TECHNOLOGIES

The Deliverables will utilize:

- Claude Code Skills (Intent Solutions Enterprise Standard)
- Lit Protocol TypeScript SDK (v6 or later)
- Lit Actions
- PKP Wallets
- Session Signatures
- Chronicle (Capacity Credits)

A.7 DELIVERY LOCATION

All Deliverables shall be delivered to:

Repository: [To be designated by Client]

Structure: Each skill in its own directory following the Skill Deliverable Standard (Exhibit A.1)

Evidence: Evidence Bundles in `/evidence` directory per phase

A.8 QUALITY STANDARDS

All Deliverables will be verified against the following before submission:

Code Quality

- ☐ Code follows Claude Code skill guidelines
- ☐ No critical linting errors
- ☐ Unit tests pass (where applicable)
- ☐ Documentation complete

Documentation Quality

- ☐ SKILL.md present and accurate

- ☐ At least 2 usage examples included
- ☐ Setup instructions provided
- ☐ Expected failure modes documented

General Quality

- ☐ Meets functional requirements as specified
- ☐ Performs within expected parameters
- ☐ Compatible with Supported Environment
- ☐ Free of critical Defects

End of Appendix A

Agreement No. LIT-2026-001 | Version 7.3

APPENDIX B: ACCEPTANCE AND CHANGE CONTROL

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

B.1 ACCEPTANCE PROCESS

Each Deliverable follows this acceptance workflow:

Step 1: Delivery Notification

Provider notifies Client of Deliverable completion via: - Written email to designated Client contact - Specification of repository location - Identification of Deliverables included - Confirmation that Evidence Bundle is complete

Step 2: Review Period

Client has **five (5) business days** from Delivery Notification to review Deliverables.

Step 3: Acceptance or Rejection

Client must provide **written response** within the Review Period: - **Acceptance:** Written confirmation that Deliverables meet Acceptance Criteria - **Rejection:** Written notice specifying Defects per Section B.3

Step 4: Revision (If Needed)

- Provider addresses valid Defects within commercially reasonable time
- **Up to two (2) revision rounds** included per Phase
- Additional revision rounds require a Change Order

Step 5: Final Acceptance

- Written confirmation from Client, OR
- Deemed Acceptance per Section B.4

B.2 ACCEPTANCE CRITERIA

A Deliverable is considered acceptable when:

Criterion	Description
Functionality	Performs the functionality described in the scope
Specific Criteria	Meets the specific Acceptance Criteria listed in Appendix A
No Critical Defects	Free of critical Defects that prevent core functionality
Documentation	Documentation is complete and accurate
Evidence Bundle	Evidence Bundle is complete per Exhibit A.1

B.3 REJECTION REQUIREMENTS

A valid rejection **must** include:

Requirement	Description
Specific Deliverables	Identify which Deliverable(s) are being rejected
Detailed Defects	Describe each Defect in detail with steps to reproduce
Criteria Reference	Reference specific Acceptance Criteria not met
Environment	Specify environment where Defect was observed
Contact	Provide contact information for follow-up

Invalid Rejections

The following do **not** constitute valid rejection:

- General dissatisfaction without specific Defects
- Preference or style concerns not in Acceptance Criteria
- Requests for functionality not in original Scope of Work
- Issues arising from Client modifications
- Issues arising from use outside Supported Environment

Invalid rejections do not stop the Review Period clock. Client must provide a valid rejection before the Review Period expires to prevent Deemed Acceptance.

B.4 DEEMED ACCEPTANCE

> **DEEMED ACCEPTANCE:** Deliverables will be deemed accepted if Client does not provide written notice of specific Defects within five (5) business days of Delivery Notification. Failure to reject within this window constitutes final and irrevocable acceptance.

Effect of Deemed Acceptance

- Payment milestone is triggered
- Warranty Period begins
- Deliverable is considered complete

Avoiding Deemed Acceptance

To avoid Deemed Acceptance, Client must: 1. Provide written rejection before Review Period expires 2. Include all required elements per Section B.3 3. Reference specific Acceptance Criteria not met

---

B.5 DEFECT DEFINITION

What Constitutes a Defect

A **"Defect"** is a reproducible failure of a Deliverable to conform to its documented Acceptance Criteria when operated in a Supported Environment.

Defect Requirements

- **Reproducible:** Can be consistently reproduced following specific steps
- **Documented Criteria:** Fails to meet criteria explicitly stated in Appendix A
- **Supported Environment:** Occurs in the Supported Environment defined in the Agreement

What Is NOT a Defect

Category	Description
Enhancement	New functionality not in original scope
Preference	Stylistic or preference-based concerns
Environment	Issues in unsupported environments
Modification	Issues caused by Client modifications
Third-Party	Issues caused by third-party changes (SDK, Claude Code, etc.)

B.6 WARRANTY

Warranty Period

Sixty (60) days from Acceptance of each Deliverable.

Warranty Coverage

Covered	Not Covered
Defects in delivered work	Changes to Lit SDK breaking compatibility
Issues from delivered code	Changes to Claude Code breaking compatibility
Functionality not matching specifications	Client modifications to Deliverables
	Issues in Client's infrastructure
	Third-party service outages

Bug vs. Change Request

Bug (Warranty Covered)	Change Request (Requires Change Order)
Delivered work does not function as specified	New functionality not in original scope
Regression from previously working functionality	Modifications to accepted Deliverables
Critical error preventing core use	Enhancements beyond specifications

Platform Dependency Clause

> Provider is not liable for functionality failures caused by changes to third-party platforms (including but not limited to Claude Code, Anthropic API, Lit Protocol SDK, or other third-party services) occurring after delivery and acceptance of a Deliverable. Remediation of third-party platform changes after acceptance will be handled as a Change Order at standard rates, or under a maintenance agreement if one is in place.

B.7 CHANGE CONTROL

Change Order Requirement

> Any request to alter the Scope of Work that materially impacts timeline or cost must be submitted via a signed Change Order. Provider is not obligated to perform out-of-scope work until a Change Order is executed by both parties.

Change Order Process

Step	Action	Timeline
1	Client submits written change request	-
2	Provider assesses impact	Within 3 business days
3	Provider prepares Change Order document	Within 2 business days of assessment

Step	Action	Timeline
4	Client reviews and signs Change Order	-
5	Work proceeds upon execution	-

Change Order Contents

A Change Order includes: - Description of requested changes - Impact on timeline (if any) - Additional cost (if any) - Updated Acceptance Criteria - Signatures from both parties

Standard Change Fees

Change Type	Fee
Swap skill (same complexity, before phase starts)	No charge
Add skill to phase	+$5,000 per skill
Change skill mid-phase	+$2,500 change fee
Remove skill before phase starts	Credit for future work
Rush assessment (same-day response)	+$500

B.8 MULTIPLE REVIEW CYCLES

Included Revision Rounds

- **Two (2) revision rounds** are included per Phase
- Revision rounds apply only to **Defect remediation**
- Each round has a 5-business-day review period

Additional Revision Rounds

Beyond the included two rounds: - Require a signed Change Order - Standard fee: $2,500 per round - New Acceptance Criteria if scope has changed

Scope of Revisions

Revision rounds are limited to: - Correcting documented Defects - Addressing specific Acceptance Criteria failures - Fixing reproducible issues in Supported Environment

Revision rounds do **not** include: - New functionality requests - Preference-based changes - Changes to accepted Deliverables

---

B.9 PAYMENT TRIGGERS

Invoice on Delivery Notice

Provider shall issue invoice upon sending Delivery Notice for each Phase.

Payment Not Conditioned on Acceptance

Payment is due per the Payment Schedule regardless of: - Pending review period - Ongoing revision rounds - Disputed Defects (undisputed amounts due)

Dispute Resolution

- Client must pay undisputed amounts on time
- Disputed amounts resolved per Section 5.6 of Master Agreement
- Invalid disputes do not delay payment obligations

End of Appendix B

Agreement No. LIT-2026-001 | Version 7.3

APPENDIX C: CLIENT RESPONSIBILITIES AND DEPENDENCIES

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

C.1 CLIENT RESPONSIBILITIES

Client agrees to provide the following in a timely manner to enable successful delivery:

Required Provisions

#	Responsibility	Deadline	Notes
1	GitHub repository access for skill delivery	Within 5 business days of Effective Date	Write access required
2	Lit SDK (latest TypeScript/JS version)	Within 5 business days of Effective Date	v6 or later
3	Testnet access (Chronicle Yellowstone or equivalent)	Within 5 business days of Effective Date	Must support testing
4	Testnet capacity credits for testing	Within 5 business days of Effective Date	Sufficient for skill testing
5	API documentation (latest developer docs)	Within 5 business days of Effective Date	Complete and current
6	Technical contact designation	Within 2 business days of Effective Date	With authority to approve
7	Test PKP wallet for integration testing	Within 5 business days of Effective Date	Pre-configured
8	Sample Lit Action (reference implementation)	Within 5 business days of Effective Date	Working example

---

C.2 DESIGNATED PRODUCT OWNER

Client shall designate a **Product Owner** with authority to:

- Accept or reject Deliverables on Client's behalf
- Provide feedback and approve revisions
- Respond to clarification requests
- Sign Change Orders up to $10,000

Initial Product Owner: [To be designated by Client]

Changes: Client may change the designated Product Owner upon written notice to Provider.

C.3 COMMUNICATION EXPECTATIONS

Response Times

Request Type	Response Deadline
Clarification questions	2 business days
Acceptance decisions	5 business days (per Review Period)
Change Order approval	5 business days
Access/credential requests	2 business days
Technical blockers	1 business day

Communication Channels

- **Primary:** Email to designated contacts
- **Urgent:** Direct contact (phone/Slack if agreed)
- **Formal notices:** Per Master Agreement Section 15.6

Escalation Path

Level	Contact	When
1	Designated Product Owner	Day-to-day issues
2	[Client Manager TBD]	Unresolved issues after 3 business days
3	[Client Executive TBD]	Contract-level issues

C.4 CLIENT MATERIALS

Definition

"Client Materials" includes any materials, data, specifications, documentation, or other information provided by Client to Provider for use in performing the Services.

Examples of Client Materials

- Lit Protocol SDK and documentation
- Sample code and reference implementations
- Technical specifications and requirements
- Test credentials and access tokens
- Brand guidelines (if applicable)
- Feedback on Deliverables

Client's Obligations Regarding Client Materials

Client represents and warrants that: - Client has the right to provide Client Materials - Client Materials do not infringe third-party rights - Client Materials are accurate and complete to the best of Client's knowledge

Treatment as Confidential Information

All Client Materials are treated as Client's Confidential Information unless otherwise marked.

C.5 ACCESS REQUIREMENTS

Client will provide Provider with:

Access Type	Purpose	Security
GitHub repository (write)	Skill delivery	Standard Git permissions
Lit testnet	Testing and validation	API keys via secure channel
Documentation portal	Reference materials	Read access
Slack/Discord (optional)	Real-time communication	Invitation to designated channel

Credential Management

- Provider will store credentials securely
- Credentials used only for this engagement
- Credentials returned/revoked upon completion
- Provider will not share credentials with third parties

C.6 ASSUMPTIONS

This engagement assumes the following. If any assumption proves incorrect, a Change Order may be required:

Client-Confirmed Assumptions

Assumption	Impact if Incorrect
Lit provides SDK access and documentation within 5 business days of signing	Timeline delay
Lit provides testnet access and capacity credits	Cannot complete testing
Lit designates technical contact with 2-business-day response SLA	Review delays, potential deemed acceptance
Lit Protocol SDK is stable (no breaking changes during engagement)	Rework required

To-Be-Validated Assumptions

Assumption	Validation Method	Impact if Incorrect
Claude Code remains available and compatible	Ongoing monitoring	Force Majeure may apply
Lit testnet supports required functionality	Phase 1 testing	Scope adjustment needed

---

C.7 IMPACT OF DELAYS

Timeline Extension

If Client delays in providing required dependencies: - Project timeline extends **day-for-day** for the duration of the delay - Provider not liable for resulting schedule impacts - No additional fees for reasonable delays (under 10 business days)

Material Delays (Over 10 Business Days)

For delays exceeding 10 business days: - Provider may request a Change Order for context-switching costs - Provider may reassign resources to other engagements - Remobilization fee of $2,500 may apply

Review Period Delays

If Client fails to respond within Review Periods: - **Deemed Acceptance** applies per Appendix B - Payment milestone is triggered - Provider may proceed to next Phase

---

C.8 FAILURE TRIGGERS

Client's failure to meet obligations triggers the following:

Schedule Extension Triggers

Trigger	Effect
Late provision of Client Materials	Day-for-day extension
Late response to clarification requests	Day-for-day extension
Late access/credential provision	Day-for-day extension
Testnet unavailability (Client-controlled)	Day-for-day extension

Change Order Triggers

Trigger	Effect
Client Materials materially incomplete	Change Order for investigation
Requirements change after Phase start	Change Order for rework
SDK breaking changes (Client-initiated)	Change Order for remediation
Additional review cycles beyond 2	Change Order for revision fees

Deemed Acceptance Triggers

Trigger	Effect
No response within Review Period	Deemed Acceptance
Invalid rejection (lacks required elements)	Clock continues until valid rejection
Rejection on non-criteria grounds	Not valid; Deemed Acceptance applies

---

C.9 CLIENT COOPERATION

General Cooperation

Client shall: - Provide reasonable access to information and personnel - Respond promptly to inquiries within stated timelines - Escalate internal blockers promptly - Notify Provider of any changes affecting the engagement

Non-Interference

Client shall not: - Modify Deliverables in repository before Acceptance - Share Provider credentials with unauthorized personnel - Make SDK changes that could affect Deliverables without notice - Withhold information material to the engagement

---

C.10 DEPENDENCY VERIFICATION

Dependency Checklist (Pre-Kickoff)

Provider will verify the following before Phase 1 begins:

- ☐ GitHub repository access confirmed

- ☐ Lit SDK access confirmed (version documented)
- ☐ Testnet access confirmed (network documented)
- ☐ Capacity credits available
- ☐ Technical contact designated
- ☐ Communication channels established
- ☐ Sample Lit Action provided

Kickoff Dependency Completion

All dependencies must be verified before the Phase 1 timeline begins. Timeline starts on the later of: - Effective Date - Dependency verification completion

---

End of Appendix C

Agreement No. LIT-2026-001 | Version 7.3

APPENDIX D: INTELLECTUAL PROPERTY AND OPEN SOURCE

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

D.1 INTELLECTUAL PROPERTY MODEL

Ownership Structure

Model: Provider Owns with Broad License to Client

Category	Ownership	License
Work Product	Provider	Broad license to Client per Section D.2
Background IP	Original owner	Limited license as needed
Client Materials	Client	License to Provider for Services
Third-Party Components	Third parties	Subject to third-party terms

---

D.2 CLIENT LICENSE GRANT

Subject to full payment of applicable Fees, Provider grants Client a license with the following characteristics:

License Terms

Attribute	Grant
Duration	Perpetual
Territory	Worldwide
Royalties	Royalty-free
Exclusivity	Non-exclusive
Transferability	Transferable
Sublicensing	Sublicensable

Permitted Uses

Client may: - Use, copy, modify, and create derivative works of the Deliverables - Distribute the Deliverables internally - Provide the Deliverables to Client's contractors and affiliates - Distribute the Deliverables as part of Lit Protocol's developer ecosystem - Incorporate the Deliverables into Lit Protocol documentation and SDK tooling - Sublicense the Deliverables to end users and partners

Restriction

The license does **not** include the right to: - Resell the Deliverables as a standalone commercial product separate from Lit Protocol's ecosystem - Remove or obscure Provider attributions (where present)

D.3 BACKGROUND IP

Provider Background IP

Provider retains all rights to:

Category	Examples
Pre-existing tools	Intent Solutions skill framework, templating engine
Pre-existing libraries	Utility functions, helper modules
Pre-existing methodologies	Development workflows, quality processes
Independently developed IP	IP developed outside this engagement

License: To the extent Provider Background IP is incorporated into Deliverables, Provider grants Client a non-exclusive, perpetual license to such Background IP solely as necessary to use the Deliverables as permitted herein.

Client Background IP

Client retains all rights to Client's pre-existing intellectual property, including: - Lit Protocol SDK - Lit Protocol documentation - Client's trademarks and branding - Client's existing code and specifications

---

D.4 PROVIDER REUSE RIGHTS

Provider retains the right to:

Generalized Patterns

- Use generalized, non-confidential patterns and techniques learned during the engagement in other projects
- Develop similar skills or tools for other clients using general knowledge and publicly available information

Portfolio and Marketing

- Reference the engagement in portfolios (subject to Section 11 of Master Agreement)
- Create marketing materials describing general nature of work (without disclosing Confidential Information)

Open Source Contributions

- Open-source generic components that do not contain Client Confidential Information
- Contribute improvements to open-source libraries used in the project

Limitations

Provider shall not: - Disclose Client Confidential Information - Provide Client-specific implementations to competitors - Use Client's trademarks without permission

---

D.5 WORK PRODUCT DEFINITION

Included in Work Product

Category	Description
Skills	All 24 Claude Code skills developed under this Agreement
Documentation	SKILL.md files, README files, usage guides
Tests	Unit tests, validation scripts
Examples	Usage examples and sample code
Configuration	Configuration files and templates

Not Included in Work Product

Category	Description
Provider Background IP	Pre-existing tools and frameworks
Third-Party Components	Open source and licensed components
Client Materials	Client-provided specifications and code
General Knowledge	Skills and techniques generally known in the industry

---

D.6 THIRD-PARTY COMPONENTS

Usage Policy

Provider may incorporate Third-Party Components into Deliverables, subject to: - Compatibility with Client's permitted use - Compliance with third-party license terms - Documentation in NOTICE files

Third-Party License Terms

Third-Party Components remain subject to their respective license terms. Client is responsible for: - Reviewing applicable third-party licenses - Complying with third-party license requirements - Any fees or royalties owed to third parties (if any)

No Transfer of Rights

Neither party transfers rights in Third-Party Components. Client's rights are derived from the applicable third-party license.

D.7 OPEN SOURCE SOFTWARE POLICY

Approved Licenses

Provider may use OSS components under the following **permissive licenses only**:

License	Approved
MIT License	[X]
Apache License 2.0	[X]
BSD 2-Clause	[X]
BSD 3-Clause	[X]
ISC License	[X]

Prohibited Licenses (Copyleft)

The following licenses are **prohibited without prior written approval**:

License	Status
GNU General Public License (GPL)	Prohibited
GNU Affero General Public License (AGPL)	Prohibited
GNU Lesser General Public License (LGPL)	Requires approval
Mozilla Public License (MPL)	Requires approval
Creative Commons ShareAlike	Prohibited for code

Approval Process for Copyleft

If copyleft-licensed components are necessary: 1. Provider submits written request identifying component and license 2. Client reviews implications and provides written approval or rejection 3. Approval must be received before component is incorporated

OSS Attribution

Each Skill shall include a **NOTICE file** listing: - All Third-Party Components used - Applicable license for each component - Copyright notices as required by licenses

---

D.8 OSS VULNERABILITY DISCLAIMER

> **DISCLAIMER:** Provider does not warrant the security, fitness, or continued availability of Open Source Software components. OSS components may contain undiscovered vulnerabilities, may be abandoned by maintainers, or may have licensing changes in future versions.

Client's OSS Responsibilities

Client is responsible for: - Ongoing security monitoring of OSS components in production - Applying security patches and updates - Compliance with OSS license obligations - Evaluation of OSS component fitness for Client's use case

Security Scanning

OSS vulnerability scanning is **not included** in the base engagement. Client may: - Request security scanning as an add-on service - Conduct independent security scanning - Engage third-party security auditors

---

D.9 LICENSE EFFECTIVE UPON PAYMENT

Conditional Grant

The license grants in Section D.2 are conditional upon full payment of the applicable Fees.

Effect of Non-Payment

Until full payment is received: - Provider retains all rights in the Work Product - Client has no license to use, copy, or distribute Deliverables - Client must cease use of any Deliverables provided prior to payment

Payment Verification

Upon request, Provider may require verification of payment status before Client exercises license rights.

D.10 IP REPRESENTATIONS

Provider Representations

Provider represents that: - Provider has the right to grant the licenses herein - To Provider's knowledge, the Work Product (excluding Client Materials and Third-Party Components) does not

infringe third-party intellectual property rights - Provider will not knowingly incorporate infringing materials

No Warranty

Provider does not warrant that: - The Deliverables will be free from all IP claims - All potential IP rights have been cleared - No third party will assert IP claims

Client's Remedy

Client's exclusive remedy for IP infringement is set forth in Section 9 (Indemnification) of the Master Agreement.

End of Appendix D

Agreement No. LIT-2026-001 | Version 7.3

APPENDIX E: SECURITY BOUNDARIES

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

E.1 SECURITY POSTURE

Nature of Deliverables

Skills are provided as **developer productivity tools**. They generate code patterns and assist with development tasks. They are **not** security products or services.

Security-Related Skills

The following Skills have **security scope limitations** (marked with * in Appendix A):

Skill	Limitation
PKP DEX Aggregator	MEV protection patterns are best-effort; cannot guarantee MEV elimination
MEV Protection	Flashbots patterns reduce but do not eliminate MEV exposure
Lit Action Security Auditor	Provides checklists and patterns; not a security audit
Private Transaction Builder	Privacy depends on third-party services; not guaranteed

---

E.2 SECURITY SCOPE

What IS Included

Category	Description
Secure coding practices	Code follows industry-standard secure coding guidelines
Input validation patterns	Basic validation and sanitization patterns in generated code
Credential handling	Skills handle Client-provided credentials securely during development
Output encoding	Proper encoding in generated code to prevent injection vulnerabilities
Error handling	Appropriate error handling that does not leak sensitive information
Documentation	Security considerations documented where applicable

What IS NOT Included

Category	Description	Alternative
Penetration testing	Active security testing of generated code	Engage security firm
Security auditing	Comprehensive security review	Engage audit firm
Vulnerability management	Ongoing vulnerability monitoring	Maintenance agreement
Incident response	Response to security incidents	Separate agreement
Compliance certifications	SOC 2, PCI-DSS, HIPAA, etc.	Compliance consultant
Guaranteed security outcomes	Warranty that code is "secure"	Not available

---

E.3 SECURITY DISCLAIMERS

> **IMPORTANT:** Read these disclaimers carefully. By executing this Agreement, Client acknowledges and accepts these limitations.

Disclaimer 1: No Security Guarantee

Security-related Skills assist developers but **DO NOT guarantee security**. The Skills provide patterns and best practices; actual security depends on proper implementation, deployment, and ongoing maintenance.

Disclaimer 2: MEV Protection Limitations

MEV protection patterns reduce exposure but **CANNOT eliminate MEV risk**. Malicious actors may develop new MEV extraction techniques. Complete MEV protection is not technically possible in public blockchain environments.

Disclaimer 3: Transaction Privacy Limitations

Transaction privacy depends on **third-party services and network conditions**. Privacy cannot be guaranteed. Private mempool services may have their own vulnerabilities, may be discontinued, or may not provide absolute privacy.

Disclaimer 4: Independent Review Required

Users **MUST conduct independent security reviews** before deploying generated code to production. Provider does not review final implementations or deployment configurations.

Disclaimer 5: Professional Audit Recommended

Professional audit services are recommended for production deployments, particularly for applications handling significant value or sensitive data.

Disclaimer 6: Pattern-Only Nature

Skills marked with * provide **patterns only**-not tested, audited security implementations. Client is responsible for validating patterns against their specific security requirements.

E.4 SHARED RESPONSIBILITY MODEL

Provider Responsibilities

Area	Responsibility
Skill development	Develop Skills per specifications
Documentation	Document security considerations
Defect remediation	Fix Defects during Warranty Period
Secure development	Follow secure development practices
Credential protection	Protect Client credentials during engagement

Client Responsibilities

Area	Responsibility
SDK stability	Maintain stable SDK without security regressions
Testnet security	Ensure testnet environment is appropriate for testing
Production decisions	Make all production deployment decisions
Security audits	Conduct security audits before production deployment
Vulnerability management	Monitor and patch vulnerabilities in production
Compliance	Ensure compliance with applicable regulations
Access control	Control access to deployed skills and credentials
User education	Educate end users on security limitations

E.5 DATA HANDLING

During Engagement

Category	Policy
Data access	Provider accesses only data necessary for the work
Test data	Should be anonymized or synthetic when possible
Production data	Accessed only when explicitly authorized in writing
Credential storage	Stored securely using industry-standard encryption
Data transmission	Transmitted via encrypted channels (HTTPS, SSH)

After Engagement

Category	Policy
Data deletion	Provider deletes or returns Client data upon request
Retention	No Client data retained beyond project completion
Credentials	Revoked or returned per Client instructions
Backups	Automated backups destroyed within 30 days of completion

Data Breach

If Provider becomes aware of unauthorized access to Client data: 1. Provider notifies Client within 24 hours 2. Provider cooperates with Client's incident response 3. Provider preserves relevant evidence 4. Provider assists with regulatory notifications if required

---

E.6 COMPLIANCE

No Compliance Certifications

No specific compliance frameworks are included in this engagement. Provider does not hold, and is not certifying compliance with: - SOC 2 (Type I or Type II) - ISO 27001 - PCI-DSS - HIPAA - GDPR (as a processor) - Any other compliance framework

Compliance Support Available

If compliance support is needed, discuss as a potential scope addition via Change Order.

Client's Compliance Obligations

Client is solely responsible for: - Determining applicable compliance requirements - Implementing appropriate controls - Achieving and maintaining certifications - Regulatory notifications and reporting

---

E.7 INCIDENT NOTIFICATION

Provider's Obligations

If Provider becomes aware of a potential security incident affecting Client data or systems during the engagement, Provider will:

Step	Timing
Notify Client	Within 24 hours of discovery
Provide details	To the extent known
Cooperate with investigation	As reasonably requested
Preserve evidence	As feasible and legal
Support remediation	As agreed

Limitations

This incident notification obligation: - Applies only during the engagement period - Does not constitute ongoing security monitoring - Does not create liability for undetected incidents - Ends upon completion of the engagement

Post-Engagement

After engagement completion, Provider has no ongoing obligation to: - Monitor for security incidents - Notify Client of vulnerabilities discovered later - Provide security updates or patches

These services are available via a Maintenance Agreement (Appendix F).

E.8 SECURITY ACKNOWLEDGMENT

CLIENT ACKNOWLEDGMENT: By executing this Agreement, Client acknowledges that:

1. Skills are **developer productivity tools**, NOT security products
2. Client is **solely responsible** for security audits of production deployments
3. Provider bears **no liability** for security incidents arising from Skill-generated code
4. **Professional security audits** are recommended before production deployment
5. Security-related Skills provide **patterns only**, not guaranteed security implementations

---

E.9 SECURITY BEST PRACTICES

Recommendations for Client

Provider recommends Client implement the following before production deployment:

Category	Recommendation
Code review	Conduct security-focused code review of generated code
Static analysis	Run static analysis security tools
Dynamic testing	Perform dynamic security testing
Penetration testing	Engage professional penetration testers
Key management	Implement robust key management practices
Access controls	Implement principle of least privilege
Monitoring	Deploy security monitoring and alerting
Incident response	Develop incident response procedures
Regular audits	Schedule regular security audits

Resources

- OWASP Smart Contract Top 10
- Lit Protocol Security Best Practices
- Industry-standard security audit firms

End of Appendix E

Agreement No. LIT-2026-001 | Version 7.3

APPENDIX F: SUPPORT AND SLA

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

F.1 SUPPORT TIERS

Tier Overview

Tier	Name	Availability	Fee
Warranty	Warranty Support	60 days post-Acceptance	Included
Basic	Monthly Maintenance (Basic)	Ongoing	$4,000/month
Premium	Monthly Maintenance (Premium)	Ongoing	$8,000/month
Ad-Hoc	As-Needed Support	Per request	Hourly rate

F.2 WARRANTY SUPPORT

Included During Warranty Period

Service	Included
Defect fixes	[X]
Documentation corrections	[X]
Regression remediation	[X]
Clarification responses	[X]

Not Included During Warranty

Service	Status
New functionality	Requires Change Order
Enhancements	Requires Change Order
Third-party compatibility fixes	Requires Change Order
Deployment support	Requires maintenance agreement
SLA response times	Requires maintenance agreement

Warranty Response Times

During the Warranty Period, response times are **commercially reasonable** but not guaranteed. For guaranteed SLAs, purchase a maintenance agreement.

F.3 MONTHLY MAINTENANCE (BASIC)

Price: $4,000/month **Availability:** Begins after Phase 3 completion

Included Services

Service	Description	Limit
Support hours	Technical support and bug fixes	10 hours/month
Compatibility monitoring	Monitor for SDK/Claude Code changes	Included
Priority access	Priority response to support requests	Included
Email support	Email-based support channel	Unlimited requests
Carry-over hours	Unused hours carry to next month	Up to 5 hours

Response Times (Basic Tier)

Severity	Response Time	Resolution Target
Critical	1 business day	3 business days
High	2 business days	5 business days
Normal	3 business days	10 business days

Exclusions (Basic Tier)

- Slack/Discord channel access
- Monthly architecture reviews
- New skill development
- Training sessions
- On-site support

F.4 MONTHLY MAINTENANCE (PREMIUM)

Price: $8,000/month **Availability:** Begins after Phase 3 completion

Included Services

Service	Description	Limit
Support hours	Technical support and bug fixes	20 hours/month
Compatibility monitoring	Proactive SDK/Claude Code monitoring	Included
Priority access	Highest priority response	Included
Dedicated Slack channel	Direct communication channel	Included
Monthly architecture reviews	Review sessions and recommendations	1 per month
New skill development	Development of new skills	1 per month
Carry-over hours	Unused hours carry to next month	Up to 10 hours

Response Times (Premium Tier)

Severity	Response Time	Resolution Target
Critical	4 business hours	1 business day
High	8 business hours	2 business days
Normal	1 business day	5 business days

Premium Benefits

- Dedicated Slack/Discord channel for real-time communication
- Monthly 1-hour architecture review calls
- Proactive notifications of SDK/platform changes
- One (1) new skill development per month (up to $5,000 value)
- Priority scheduling for change requests

F.5 AD-HOC SUPPORT

Availability

Available to Clients without a maintenance agreement, subject to Provider availability.

Pricing

Service	Rate
Support/Development	$200/hour
Rush (same-day)	$300/hour
After-hours/Weekend	$400/hour

Terms

- Minimum engagement: 2 hours
- Requires prepayment or active invoice terms
- Subject to availability (no guaranteed response times)
- No carry-over of unused hours

F.6 SEVERITY DEFINITIONS

Critical Severity

- **Definition:** Skill is completely non-functional
- **Impact:** All users unable to use affected skill
- **Examples:**
  - Skill fails to load or execute
  - Complete loss of core functionality
  - Security vulnerability requiring immediate action

High Severity

- **Definition:** Major functionality impaired
- **Impact:** Significant feature unavailable; workaround difficult
- **Examples:**
  - Key workflow broken
  - Output consistently incorrect
  - Performance degradation preventing normal use

Normal Severity

- **Definition:** Minor functionality issue
- **Impact:** Workaround available; limited user impact
- **Examples:**
  - Documentation error
  - Edge case handling issue
  - Minor UI/output formatting issues

F.7 SUPPORT PROCESS

Submitting Support Requests

Channel	Availability
Email: support@intentsolutions.io	All tiers
Slack channel	Premium tier only
Support portal (if implemented)	All tiers

Required Information

Support requests must include: 1. Skill name and version 2. Description of issue 3. Steps to reproduce 4. Expected vs. actual behavior 5. Environment details (SDK version, Claude Code version) 6. Severity assessment (Client's view)

Response Process

1. Provider acknowledges receipt
2. Provider triages and assigns severity
3. Provider communicates estimated resolution
4. Provider works on resolution
5. Provider delivers fix or workaround
6. Client confirms resolution

F.8 ESCALATION

Escalation Path

Level	When	Contact
L1: Support	Initial request	support@intentsolutions.io
L2: Technical Lead	Unresolved after SLA	Jeremy Longshore
L3: Management	Contract/relationship issues	Jeremy Longshore (Principal)

Escalation Triggers

Trigger	Action
SLA breach (2x target)	Automatic escalation to L2
Client request	Escalation upon reasonable request
Repeated issues	Review and escalation
Critical severity	Immediate L2 engagement

F.9 MAINTENANCE AGREEMENT TERMS

Term

- Month-to-month unless otherwise agreed
- Annual commitment available with 10% discount

Billing

- Monthly in advance
- Due NET 15 from invoice date

Termination

- Either party may cancel with 30 days notice
- No refund for partial months
- Unused hours do not carry over after cancellation

Renewal

- Automatic renewal unless cancelled
- Price adjustments with 60 days notice

F.10 OUT-OF-SCOPE SUPPORT

The following are **not included** in any support tier:

Category	Description	Alternative
New development	Significant new functionality	Change Order
Third-party fixes	Issues caused by SDK/Claude Code changes	Change Order or included in Premium monitoring
Client modifications	Issues from Client code changes	Ad-hoc support
Infrastructure	Client environment issues	Client responsibility
Training	User training sessions	Training Workshop add-on
Compliance	Compliance-related work	Separate engagement

F.11 SERVICE CREDITS (PREMIUM ONLY)

SLA Credit Eligibility

For Premium tier Clients, service credits apply when Provider fails to meet SLAs:

SLA Miss	Credit
Response time missed by 2x	5% of monthly fee
Resolution target missed by 2x	10% of monthly fee
Critical issue unresolved 5+ days	25% of monthly fee

Credit Limits

- Maximum monthly credit: 50% of monthly fee
- Credits applied to next invoice
- Must request credits within 30 days of incident

Exclusions

Credits do not apply to: - Issues caused by Client - Third-party service outages - Force Majeure events - Issues outside Supported Environment

---

End of Appendix F

Agreement No. LIT-2026-001 | Version 7.3

APPENDIX G: RATE CARD AND CHANGE FEES

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

G.1 BASE ENGAGEMENT PRICING

Fixed-Price Engagement

Item	Amount
Total Fixed Price	$100,000.00
Phase 1 (6 P0 Skills)	$25,000.00
Phase 2 (11 P1 Skills)	$30,000.00
Phase 3 (7 P2 Skills)	$20,000.00
Contract Signing	$25,000.00

G.2 ADD-ON SERVICES

Tier 1: Platform Extensions

Service	Price	Description
MCP Server Development	$20,000	Lit Protocol MCP Server exposing PKP operations, Lit Actions, and session management as tools. Enables direct invocation from Claude Code, VS Code, Cursor, and any MCP-compatible environment.
Multi-Agent Orchestration Platform	$30,000	Enterprise-grade agent workflows: PKP Security Auditor Agent, Cross-Chain Orchestrator Agent, Developer Onboarding Agent. Includes complexity-based routing and audit trails.

Service	Price	Description
Stackable Workflow System	$15,000	Composable skill chains that execute multi-step operations as single commands. Examples: PKP->Lit Action->Sign->Broadcast, Audit->Fix->Test->Deploy workflows.

Tier 2: Strategic Services

Service	Price	Description
Plugin Marketplace Strategy	$12,000	Architecture and launch strategy for Lit-branded Claude Code plugins ecosystem. Includes templates, documentation, and community building playbook.
AI Cost Optimization Layer	$15,000	Intelligent model routing achieving 60-80% cost reduction. Complexity estimation, smart routing (local models for simple, cloud for complex), cost tracking dashboard.
Privacy-First Agent Memory	$18,000	Encrypted memory system (AES-256-GCM) with content-addressed storage, local indexing, and fail-closed secret detection for sensitive developer tool context.

Tier 3: Ongoing Services

Service	Price	Description
Monthly Maintenance (Basic)	$4,000/mo	Begins after Phase 3. 10 hrs/month support, compatibility monitoring, priority access. See Appendix F for details.
Monthly Maintenance (Premium)	$8,000/mo	Begins after Phase 3. 20 hrs/month support, dedicated Slack channel, monthly architecture reviews, 1 new skill development per month included. See Appendix F for details.
Training Workshop (2-day)	$8,000	Hands-on training: Plugin Development, MCP Server Development, or Multi-Agent Architecture. Remote or on-site.

Service	Price	Description
White-Label Licensing	$15,000	License Intent Solutions skill framework for Lit customization and distribution. Includes royalty arrangement for skills Lit distributes.

Rush Options

Service	Price	Description
Additional Skill Development	$5,000/ea	Per skill, as requested
Rush Delivery (10 weeks)	$20,000	Expedited delivery (vs. 14 weeks), due upfront
Rush Delivery (8 weeks)	$35,000	Maximum expedited delivery, due upfront

---

G.3 CHANGE ORDER FEES

Scope Changes

Change Type	Fee
Swap skill (same complexity, before phase starts)	No charge
Add skill to existing phase	+$5,000 per skill
Change skill mid-phase	+$2,500 change fee
Remove skill before phase starts	Credit for future work
Complex skill upgrade (security-focused)	+$7,500 per skill

Timeline Changes

Change Type	Fee
Pause engagement (<10 business days)	No charge
Pause engagement (>10 business days)	$2,500 remobilization
Extend phase deadline (Client-requested)	No charge
Compress timeline by 2+ weeks	Change Order required

Administrative Fees

Service	Fee
Rush assessment (same-day impact analysis)	$500
After-hours meeting (outside 9am-6pm PT)	$250/hour
Additional revision round (beyond 2 included)	$2,500/round
Re-opening accepted Deliverable	$1,500 + hourly

G.4 HOURLY RATES

Standard Rates

Service Type	Rate
Development	$200/hour
Architecture/Consulting	$250/hour
Rush work (same-day)	$300/hour
After-hours/Weekend	$400/hour

When Hourly Applies

Hourly rates apply to: - Ad-hoc support (no maintenance agreement) - Work outside Change Order scope - Time & materials change orders - Training and consulting sessions

---

G.5 INVOICING TERMS

Invoice Schedule

Trigger	Amount
Contract execution	$25,000 (25%)
Phase 1 Delivery Notice	$25,000 (25%)
Phase 2 Delivery Notice	$30,000 (30%)
Phase 3 Delivery Notice	$20,000 (20%)

Payment Terms

Term	Value
Payment due	NET 5 calendar days
Late fee	1.5% per month (18% APR)
Suspension threshold	10 days past due
Remobilization fee	$2,500 (after 10+ day suspension)

Invoice Requirements

Invoices will include: - Invoice number and date - Description of services/milestones - Amount due - Payment instructions - Due date

---

G.6 PRICING NOTES

Currency

All prices are in **United States Dollars (USD)**.

Validity Period

Pricing in this Agreement is valid until **February 15, 2026**. After this date, Provider reserves the right to re-estimate.

Rate Changes

- Current rates guaranteed through engagement completion
- Maintenance agreement rates subject to annual adjustment with 60 days notice
- Add-on pricing subject to change for future orders

Travel Expenses

If on-site work is requested: - Travel expenses billed at cost plus 15% handling - Prior approval required for travel exceeding $500 - Client may book travel directly to avoid markup

Taxes

All prices are **exclusive of taxes**. Client is responsible for: - Sales tax - VAT - Withholding taxes - Other applicable taxes

---

G.7 PAYMENT METHODS

Accepted Methods

Method	Details
Wire Transfer	Provided upon request
ACH	US bank transfer

Not Accepted

Method	Reason
Cryptocurrency	Not accepted for this engagement
Credit Card	Processing fees not included
Check	Processing time concerns

Payment Instructions

Payment instructions (bank details) will be provided on each invoice.

G.8 EXPENSE POLICY

Pre-Approved Expenses

The following do not require prior approval: - Standard software licenses under $100 - Cloud compute for testing under $100/month - Reference materials under $50

Requires Prior Approval

The following require written approval: - Travel expenses - Hardware purchases - Software licenses over $100 - Third-party services - Subcontractor fees

Expense Documentation

All reimbursable expenses will be: - Documented with receipts - Itemized on invoices - Subject to Client review

---

G.9 VOLUME DISCOUNTS

Multi-Engagement Discount

For engagements exceeding $200,000 total: - 5% discount on fixed-price work - 10% discount on add-on services

Annual Maintenance Commitment

For 12-month maintenance commitment: - 10% discount on monthly rate - Premium: $7,200/month (vs. $8,000) - Basic: $3,600/month (vs. $4,000)

Training Bundle

Multiple training workshops: - 2 workshops: 10% discount - 3+ workshops: 15% discount

---

End of Appendix G

Agreement No. LIT-2026-001 | Version 7.3

APPENDIX H: SUPPLEMENTAL LEGAL TERMS

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

H.1 PURPOSE

This Appendix contains supplemental legal terms that expand upon or clarify provisions in the Master Agreement. In the event of conflict, the Master Agreement controls unless this Appendix explicitly states otherwise.

H.2 FORMAL NOTICE PROCEDURES

Notice Requirements

All formal notices under this Agreement shall be: - In writing - Delivered via email with read receipt, or overnight courier

Notice Addresses

To Provider:

```
Intent Solutions
Attn: Jeremy Longshore
Email: jeremy@intentsolutions.io
```

To Client:

```
Lit Protocol
Attn: [Legal/Contracts]
Email: [To be provided]
Address: [To be provided]
```

Notice Effectiveness

Method	Effective When
Email with read receipt	Upon confirmed receipt
Overnight courier	Upon delivery confirmation
Certified mail	5 business days after mailing

Change of Address

Either party may change notice addresses with 10 days written notice.

H.3 INSURANCE (FOR REFERENCE)

Provider Insurance

Provider maintains commercially reasonable insurance appropriate for its business operations. Certificates of insurance available upon request.

No Client Insurance Requirement

This Agreement does not require Client to maintain specific insurance coverage for the engagement.

Insurance Not a Limitation

Insurance coverage does not limit either party's liability under this Agreement.

H.4 EXPORT CONTROL

Compliance

Both parties shall comply with applicable export control laws and regulations, including U.S. Export Administration Regulations (EAR) and sanctions administered by OFAC.

No Restricted Parties

Each party represents that it is not: - Listed on any U.S. government restricted party list - Located in, or a national of, a sanctioned country - Acting on behalf of any restricted party

Export of Deliverables

Client is responsible for compliance with export laws when distributing Deliverables internationally.

H.5 ANTI-CORRUPTION

FCPA Compliance

Each party shall comply with the U.S. Foreign Corrupt Practices Act (FCPA) and similar anti-corruption laws.

No Improper Payments

Neither party shall make or offer: - Bribes to government officials - Facilitation payments - Improper payments to any person to secure business advantage

Disclosure

Each party shall promptly disclose any potential violation of this Section H.5.

H.6 RECORDS AND AUDIT

Record Keeping

Each party shall maintain accurate records relating to this Agreement for three (3) years following completion.

Audit Rights

Either party may, upon reasonable notice (not less than 10 business days), audit the other party's relevant records to verify compliance with this Agreement. Audits shall: - Be conducted during normal business hours - Not unreasonably disrupt operations - Be at the auditing party's expense (unless material breach found)

H.7 SUBCONTRACTING

Provider's Right to Subcontract

Provider may use subcontractors to perform portions of the Services, provided: - Provider remains responsible for subcontractor performance - Subcontractors are bound by confidentiality obligations at least as protective as this Agreement - Provider does not subcontract the entirety of the Services

Client Notification

Upon Client's request, Provider will identify any subcontractors used for the Services.

No Assignment of Obligations

Subcontracting does not relieve Provider of any obligations under this Agreement.

H.8 RELATIONSHIP OF PARTIES

Independent Contractors

The parties are independent contractors. Nothing in this Agreement creates: - Employment relationship - Partnership or joint venture - Agency relationship - Fiduciary duty

No Authority to Bind

Neither party has authority to: - Bind the other party to any agreement - Make representations on behalf of the other party - Incur obligations for the other party

Taxes and Benefits

Each party is responsible for its own: - Income taxes - Employment taxes - Employee benefits - Workers' compensation

---

H.9 EQUITABLE RELIEF

Availability

Either party may seek equitable relief (including injunction and specific performance) for: - Breach of confidentiality obligations - Infringement of intellectual property rights - Violation of non-solicitation provisions

No Bond Required

Neither party shall be required to post a bond as a condition of obtaining equitable relief.

Not Exclusive

Equitable relief is in addition to, not in lieu of, other remedies available at law.

H.10 CONSTRUCTION AND INTERPRETATION

Headings

Section headings are for convenience only and do not affect interpretation.

Inclusive Language

"Including" means "including without limitation" unless otherwise specified.

Joint Drafting

This Agreement shall be construed as if jointly drafted by the parties, without presumption against the drafter.

Business Days

"Business days" means Monday through Friday, excluding U.S. federal holidays.

References

References to "Sections," "Appendices," and "Exhibits" are to this Agreement unless otherwise stated.

H.11 COUNTERPARTS AND ELECTRONIC SIGNATURES

Counterparts

This Agreement may be executed in counterparts, each of which is an original.

Electronic Signatures

Electronic signatures (including DocuSign, Adobe Sign, or similar) are valid and binding.

PDF Copies

PDF copies of signed documents have the same legal effect as originals.

H.12 AMENDMENTS TO MASTER AGREEMENT

This Appendix makes no amendments to the Master Agreement. All terms in the Master Agreement remain in full force and effect.

Reserved Sections

The following provisions are addressed in the Master Agreement and not duplicated here: - Limitation of Liability (Master Agreement Section 8) - Indemnification (Master Agreement Section 9) - Confidentiality (Master Agreement Section 10) - Termination (Master Agreement Section 13) - Dispute Resolution (Master Agreement Section 14)

H.13 ENTIRE AGREEMENT CONFIRMATION

This Appendix, together with the Master Agreement and all other Appendices and Exhibits, constitutes the entire agreement between the parties regarding the subject matter hereof.

Supersession

This Agreement supersedes all prior: - Proposals (except as incorporated) - Negotiations - Representations - Agreements (written or oral)

No Reliance

Neither party has relied on any representation not expressly set forth in this Agreement.

End of Appendix H

Agreement No. LIT-2026-001 | Version 7.3

APPENDIX I: MARKETING AND PUBLICITY

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

I.1 MARKETING RIGHTS OVERVIEW

This Appendix expands upon Section 11 (Marketing and Publicity) of the Master Agreement.

Default Position

Prior written approval required for use of Client's name, logo, or trademarks in marketing materials.

Engagement Status

This engagement is **not** designated as White Label. Provider retains limited marketing rights as specified below.

I.2 PERMITTED WITHOUT APPROVAL

Provider may, without Client's prior approval:

Generic Description

Describe the engagement in general terms without identifying Client: - "Developed AI developer tools for a leading blockchain infrastructure company" - "Created Claude Code skills for a decentralized key management platform" - "Built developer productivity solutions for the Web3 ecosystem"

Internal References

Use the engagement for: - Internal portfolio tracking - Resource planning - Capability documentation

Capability Statements

Reference general capabilities demonstrated: - "Experience with blockchain/Web3 developer tools" - "Claude Code skill development expertise" - "AI-powered developer productivity solutions"

I.3 REQUIRES PRIOR WRITTEN APPROVAL

The following require Client's **prior written approval**:

Client Identification

Item	Approval Required
Use of "Lit Protocol" name	[X]
Use of Lit Protocol logo	[X]
Use of Lit Protocol trademarks	[X]
Identification as a client	[X]
Reference in client lists	[X]

Marketing Materials

Material	Approval Required
Website client section	[X]
Proposal references	[X]
Conference presentations	[X]
Press releases	[X]
Social media posts identifying Client	[X]
Blog posts referencing engagement	[X]

Case Studies

Element	Approval Required
Detailed project description	[X]
Technical approach	[X]
Outcomes and results	[X]
Client quotes	[X]

Element	Approval Required
Metrics and data	[X]

I.4 PROHIBITED WITHOUT APPROVAL

The following are **strictly prohibited** without explicit written approval:

Confidential Information

- Disclosure of any Client Confidential Information
- Proprietary technical details
- Business strategies or plans
- Internal processes or procedures

Metrics and Data

- Client usage statistics
- Performance metrics
- Adoption data
- Financial information
- User counts

Client Content

- Screenshots of Client's products
- Client's documentation or materials
- Code samples from Client's systems

Endorsements

- Implying Client endorses Provider
- Testimonials without written consent
- Award or recognition claims involving Client

I.5 APPROVAL PROCESS

Requesting Approval

1. **Submit Request:** Provider sends written request to Client contact
2. **Include Materials:** Attach proposed marketing content
3. **Specify Use:** Describe intended use and channels
4. **Response Time:** Client responds within 10 business days

Approval Form

Field	Description
Date	Request date
Requested Use	Specific marketing use
Materials	Attached content
Channels	Where content will appear
Duration	How long content will be used

Approval Response

Client shall respond with: - **Approved:** As submitted - **Approved with Changes:** With specified modifications - **Not Approved:** With reason (optional) - **No Response:** After 10 business days, request is deemed not approved

Duration of Approval

Unless otherwise specified, approvals are: - Valid for 12 months from approval date - For the specific use case requested - Revocable with 30 days written notice

---

I.6 LOGO AND TRADEMARK USAGE

If Approved

If Client approves logo/trademark usage:

Required: - Use only approved versions of logos - Maintain minimum clear space - Use proper trademark attribution (or) - Follow Client's brand guidelines

Prohibited: - Modifying or distorting logos - Using outdated versions - Placing on busy backgrounds - Implying partnership beyond service relationship

Brand Guidelines

Upon approval, Client will provide: - Approved logo files - Brand usage guidelines - Required attribution text

---

I.7 PRESS RELEASES

Joint Press Releases

Any press release mentioning both parties requires: - Mutual written approval of content - Approval of distribution timing - Approval of distribution channels

Unilateral Press Releases

Provider shall not issue press releases: - Announcing the engagement without approval - Referencing Client name without approval - Containing Client Confidential Information

Client's Rights

Client may issue press releases regarding the engagement, provided: - Content is factually accurate - Provider's Confidential Information is not disclosed - Provider receives courtesy copy before release

---

I.8 SOCIAL MEDIA

Provider's Social Media

Permitted without approval: - General capability posts (no Client identification) - Industry commentary unrelated to Client - Sharing Client's public content (without endorsement implications)

Requires approval: - Posts identifying Client - Posts about the engagement - Tagging Client accounts - Sharing project outcomes

Interaction Guidelines

Provider shall not: - Comment on Client's public posts implying relationship (without approval) - Respond to Client mentions in ways disclosing engagement - Engage in social media disputes involving Client

---

I.9 PORTFOLIO USAGE

Portfolio Rights

Subject to approval requirements above, Provider may include the engagement in portfolios for: - Prospective client discussions - Capability demonstrations - Reference checks

Portfolio Content

Portfolio entries typically include: - Client industry (blockchain/Web3) - Project type (developer tools) - Technologies used - General outcomes

Prospective Client Discussions

In discussions with prospective clients: - Provider may reference engagement with approval - Provider may not disclose Confidential Information - Client may serve as reference (if agreed separately)

I.10 AWARDS AND RECOGNITION

Award Submissions

Provider may submit the engagement for industry awards, provided: - Client is notified in advance - Submission does not disclose Confidential Information - Client's approval obtained for any Client identification

Recognition Claims

Provider shall not claim: - Client endorsement of Provider - Awards won by Client as Provider's achievement - Client success attributable solely to Provider

---

I.11 TERMINATION EFFECTS

Upon Termination

Upon Agreement termination: - Existing approved uses may continue per approval terms - No new uses without re-approval - Revocable approvals may be revoked with 30 days notice

Survival

This Appendix survives termination of the Agreement.

I.12 CONTACT FOR APPROVALS

Marketing approval requests should be sent to:

Client Contact: [To be designated by Client] Email: [To be provided]

Provider Contact: Jeremy Longshore Email: jeremy@intentsolutions.io

Agreement No. LIT-2026-001 | Version 7.3

APPENDIX J: EQUITY INCENTIVE TERMS

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

WARNING: IMPORTANT NOTICE

> **NON-BINDING DISCUSSION:** This Appendix sets forth the parties' discussion regarding potential equity incentives. **The equity terms herein are non-binding unless and until separately executed equity documentation is signed by both parties.**
>
> **Subject to:** Board approval, tax review, securities law compliance, and execution of separate equity documentation.
>
> **Does not affect delivery:** Non-issuance of equity does not affect Provider's obligation to deliver, nor Client's payment obligations for cash compensation.

J.1 PURPOSE

This Appendix documents the equity incentive terms intended to align Provider's interests with Client's long-term success. Equity is: - **Separate from** cash compensation - **Documented under** separate Equity/Advisor Agreement - **Conditional upon** board approval by Client's legal entity - **Non-blocking** to Deliverable acceptance or payment obligations

---

J.2 EQUITY GRANT SUMMARY

Proposed Terms

Term	Value
Instrument	Advisor Options (Non-Qualified Stock Options)
Size	0.2% fully diluted (FD)
Vesting Period	24 months
Cliff	3 months
Vesting Schedule	Monthly after cliff
Exercise Price	Fair Market Value (FMV) at grant date
Issuing Entity	[Client legal entity to be confirmed]
Option Type	Non-Qualified Stock Option (NSO)

Key Terms Explained

Fully Diluted (FD): Percentage calculated on all outstanding shares plus all shares reserved for issuance under equity plans, options, warrants, and convertible securities.

Cliff: Provider must remain engaged for minimum cliff period before any options vest.

Monthly Vesting: After cliff, options vest in equal monthly installments over remaining vesting period.

Exercise Price: Price at which options may be exercised, set at FMV on grant date per IRS requirements.

J.3 GRANT DEADLINE

Timeline

Event	Deadline
SOW Signature	Day 0
Grant Documentation Delivered	Day 30
Election Period (if documentation not delivered)	10 business days
Resolution Required	Day 45

Process

1. Client shall deliver executed equity grant documentation within **30 days** of Agreement execution
2. If not delivered by Day 30, the fallback process begins
3. Documentation includes: Stock Option Agreement, Option Grant Notice, Exercise Agreement

---

J.4 FALLBACK MECHANISM

If equity grant documentation is not executed by Day 30:

Client's Election

Client must elect within **10 business days** (by Day 45):

Option A: Execute Equity Documentation - Client executes equity documentation promptly (within 15 additional days) - Vesting begins from original Agreement date (retroactive) - No cash conversion

Option B: Cash Conversion - Parties negotiate in good faith a cash equivalent - Cash amount to be mutually agreed - Paid within 30 days of agreement on amount

Cash Conversion Principles

If converting to cash: - Base calculation: Number of shares most recent 409A valuation per share - Negotiation range: 80-120% of base calculation - Payment terms: Single lump sum or installments by agreement

If No Agreement Reached

If parties cannot agree on cash conversion terms within 30 days: - Matter submitted to mediation per Section 14 of Master Agreement - Mediator determines fair cash equivalent - Decision binding on both parties

---

J.5 ACCELERATION

Single Trigger Acceleration

Upon a **Change of Control** event: - **25%** of then-unvested options shall immediately vest - Remaining unvested options continue normal vesting schedule - Vested options remain exercisable per option agreement terms

Change of Control Definition

"Change of Control" means: - Sale of substantially all assets - Merger or consolidation where existing stockholders own less than 50% - Acquisition of more than 50% of voting securities - Replacement of majority of board in 12-month period

No Double Trigger

This Agreement provides single-trigger acceleration only. No additional acceleration is provided upon involuntary termination following Change of Control.

J.6 MOST FAVORED NATION (MFN) CLAUSE

MFN Protection

If Client grants more favorable advisory equity terms to a similarly situated advisor or contractor within **90 days** of Agreement execution, Client will: - Notify Provider within 10 business days - Offer Provider equivalent terms upon request

"Similarly Situated" Definition

An advisor or contractor is similarly situated if: - Providing services of comparable scope and value - In a similar engagement structure (fixed-price, time-limited) - Not a full-time employee or executive

MFN Exclusions

MFN does not apply to: - Employee grants under standard compensation plans - Founder equity - Investor-related grants - Grants in connection with acquisitions

---

J.7 SEPARATION FROM DELIVERABLES

Independence of Obligations

> **SEPARATION CLAUSE:** Equity incentives are provided for alignment purposes and are **separate from, and do not modify**:
>
> - The Deliverables defined in Appendix A
> - The Acceptance Criteria for any Deliverable
> - Payment obligations for cash compensation
> - Provider's obligation to perform the Services

Non-Issuance Effects

If equity is not issued: - Provider remains obligated to deliver all Deliverables - Client remains obligated to pay all cash Fees - Neither party may withhold performance based on equity status - Fallback mechanism in Section J.4 provides sole remedy

No Leverage

Neither party shall: - Condition Deliverable acceptance on equity terms - Withhold payment pending equity resolution - Delay Services pending equity documentation

---

J.8 SUSPENSION RIGHTS (LIMITED)

General Prohibition

Provider shall not suspend Services based on equity status alone.

Limited Exception

Provider may suspend **non-essential administrative tasks** (not Deliverables) if: - Day 45 has passed without resolution - Provider has provided 5 business days written notice - Suspension is limited to administrative matters only

Definition of Non-Essential Work

"Non-essential work" means: - Optional documentation beyond required SKILL.md - Discretionary enhancements not in Acceptance Criteria - Marketing-related collaboration - Strategic planning sessions

Non-essential work does NOT include: - Any Deliverables in Appendix A - Bug fixes during Warranty Period - Required documentation - Acceptance process participation

---

J.9 TAX CONSIDERATIONS

Provider's Responsibility

Provider is solely responsible for: - Tax consequences of equity grant - Timing of option exercise - Election decisions (e.g., 83(b)) - Tax reporting and payment

No Tax Advice

Client does not provide tax advice. Provider should consult independent tax advisor.

Withholding

Client shall withhold taxes as required by law. Provider shall provide necessary documentation for proper withholding.

J.10 DOCUMENTATION REQUIREMENTS

Required Documents

The equity grant shall be documented via Client's standard forms:

Document	Purpose
Stock Option Agreement	Terms of option grant
Option Grant Notice	Summary of key terms
Exercise Agreement	Process for exercising options
Advisor Agreement	Advisory relationship terms (if applicable)

Client's Obligation

Client shall provide: - Clean, standard form documents - Documents reviewed by qualified counsel - Documents compliant with securities laws - Cap table confirmation of allocation

---

J.11 SECURITIES COMPLIANCE

Representations

Provider represents that: - Provider is acquiring options for investment purposes - Provider has access to information about Client - Provider can bear economic risk of investment - Provider is an "accredited investor" or otherwise qualified

Restrictions

Options and underlying shares: - Are not registered under securities laws - May not be transferred except as permitted - Are subject to Client's standard transfer restrictions - May have additional lockup requirements

---

J.12 CONTACT FOR EQUITY MATTERS

Agreement No. LIT-2026-001 | Version 7.3

APPENDIX K: FULL AUDIT TABLE

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Appendix provides a clause-by-clause audit of the Services Agreement and all Appendices.

K.1 EXECUTIVE SUMMARY: TOP ISSUES ADDRESSED

#	Issue	Risk Level	Resolution	Location
1	**Indemnification Missing**	HIGH	Added full IP indemnity + Client materials indemnity	Master 9
2	**Stop-Work Mechanics Unclear**	HIGH	Added cure period, notice, remobilization fee	Master 5.8

#	Issue	Risk Level	Resolution	Location
3	**Invoice Dispute Window Missing**	HIGH	Added 5 business day dispute process	Master 5.6
4	**Liability Carve-Outs Unbounded**	HIGH	Capped confidentiality breach at 2x fees	Master 8.4
5	**Non-Solicitation Missing**	MEDIUM	Added 12-month mutual non-solicit	Master 12
6	**Marketing Approval Unclear**	MEDIUM	Prior written approval required	Master 11
7	**Defect Definition Missing**	MEDIUM	Added precise reproducible-failure definition	Master 7.2
8	**Evidence Bundle Missing**	MEDIUM	Added per-phase evidence requirement	Appendix A, Exhibit A.1
9	**Equity Blocks Delivery**	MEDIUM	De-risked: non-binding, separate execution	Appendix J
10	**Late Fees At 0%**	LOW	Changed to 1.5%/month (18% APR)	Master 5.5

K.2 FULL CLAUSE-BY-CLAUSE AUDIT

Master Agreement

Section	Clause	Status	Notes
1	Definitions	[X] Enhanced	Added 20 defined terms including Defect, Evidence Bundle, Trade Secret
2.1	Services	[X] Present	References Appendix A
2.2	Project Objective	[X] Present	Clear, measurable objective
2.3	Phases	[X] Present	Three phases defined
2.4	Skill Standard	[X] NEW	References Exhibit A.1

Section	Clause	Status	Notes
2.5	Out of Scope	[X] Present	Six exclusions listed
2.6	Change Orders	[X] Present	References Appendix B
3.1	Duration	[X] Present	14 weeks with conditions
3.2	Phase Schedule	[X] Present	Table format
3.3	Milestones	[X] Present	Clear success criteria
3.4	Timeline Extensions	[X] NEW	Day-for-day extension triggers
4.1	Delivery	[X] Enhanced	Evidence Bundle requirement added
4.2	Delivery Notice	[X] NEW	Formal notification process
4.3	Acceptance Process	[X] Present	References Appendix B
4.4	Review Period	[X] Present	5 business days
4.5	Rejection Requirements	[X] Enhanced	Detailed requirements
4.6	Deemed Acceptance	[X] Present	Clear trigger
4.7	Revision Rounds	[X] Present	2 rounds included
4.8	Rejection Limitations	[X] NEW	No preference-based rejection
5.1	Total Fees	[X] Present	$100,000
5.2	Payment Schedule	[X] Present	4 milestones
5.3	Invoice Timing	[X] Present	On trigger events
5.4	Payment Terms	[X] Present	NET 5
5.5	Late Fees	[X] CHANGED	0% -> 1.5%/month
5.6	Invoice Disputes	[X] NEW	5 business day window
5.7	Collection Costs	[X] NEW	Reimbursement clause
5.8	Suspension	[X] ENHANCED	Notice -> Cure -> Suspend -> Remob fee
5.9	License Conditioned	[X] NEW	License effective on payment
5.10	Taxes	[X] Present	Client responsible
6.1	IP Model	[X] Present	Provider owns, license to Client
6.2	Client License	[X] ENHANCED	Comprehensive license terms
6.3	Restriction	[X] Present	No standalone resale
6.4	Background IP	[X] ENHANCED	Clear separation
6.5	Client Materials	[X] Present	Client retains rights

Section	Clause	Status	Notes
6.6	Provider Reuse	[X] ENHANCED	Clear reuse rights
6.7	Third-Party	[X] Present	References Appendix D
6.8	OSS Policy	[X] Present	References Appendix D
7.1	Warranty Period	[X] Present	60 days
7.2	Defect Definition	[X] NEW	Reproducible failure definition
7.3	Warranty Remedy	[X] ENHANCED	Fix/workaround/refund options
7.4	Exclusive Remedy	[X] NEW	Clear exclusive remedy
7.5	Warranty Exclusions	[X] ENHANCED	5 exclusions including platform changes
7.6	SLA Response Times	[X] NEW	Requires maintenance retainer
7.7	Disclaimer	[X] Present	Standard disclaimer
8.1	Consequential Waiver	[X] Present	Both parties
8.2	Liability Cap	[X] Present	Total fees paid
8.3	Carve-Outs	[X] Present	Fraud, gross negligence, etc.
8.4	Confidentiality Cap	[X] NEW	2x fees, direct damages only
8.5	Consequential Applies	[X] NEW	Waiver applies to carve-outs
9.1	Provider IP Indemnity	[X] NEW	Defense + hold harmless
9.2	Indemnity Conditions	[X] NEW	Notice, control, cooperation
9.3	Indemnity Exclusions	[X] NEW	5 exclusions
9.4	Provider Remedies	[X] NEW	Procure/modify/replace/refund
9.5	Client Indemnity	[X] NEW	Client materials indemnity
9.6	Exclusive IP Remedy	[X] NEW	Section 9 is exclusive
10.1	Confidentiality Obligations	[X] Present	Standard obligations
10.2	Duration	[X] Present	2 years
10.3	Trade Secrets	[X] NEW	Survive indefinitely
10.4	Exclusions	[X] Present	Standard exclusions
10.5	Compelled Disclosure	[X] NEW	Notice + protective order
10.6	Return/Destroy	[X] ENHANCED	Backup carve-out
10.7	Injunctive Relief	[X] NEW	No bond required

Section	Clause	Status	Notes
11.1	Prior Approval	[X] CHANGED	Now requires written approval
11.2	Generic Description	[X] Present	Permitted
11.3	Case Studies	[X] Present	Requires approval
11.4	No Metrics	[X] NEW	Without approval
11.5	Survival	[X] Present	Survives termination
12.1	Non-Solicitation	[X] NEW	12 months mutual
12.2	Exceptions	[X] NEW	General advertising, etc.
13.1	Termination Convenience	[X] Present	14 days notice
13.2	Payment on Termination	[X] ENHANCED	Detailed payment terms
13.3	Termination Cause	[X] Present	30-day cure
13.4	Non-Curable Breaches	[X] NEW	Listed
13.5	Effect of Termination	[X] ENHANCED	Detailed wind-down
13.6	Survival	[X] ENHANCED	Comprehensive survival list
13.7	Force Majeure	[X] Present	Standard clause
14.1	Escalation	[X] NEW	Executive negotiation first
14.2	Arbitration	[X] Present	JAMS, San Francisco
14.3	Attorneys' Fees	[X] Present	Prevailing party
14.4	Provisional Remedies	[X] NEW	Injunction available
15	General Provisions	[X] Present	9 standard provisions
16	Proposal Validity	[X] Present	February 15, 2026

Appendix A: Scope and Deliverables

Section	Content	Status	Notes
A.1	Project Objective	[X] Present	Clear objective
A.2	Phase 1	[X] Present	6 skills with criteria
A.3	Phase 2	[X] Present	11 skills with criteria
A.4	Phase 3	[X] Present	7 skills with criteria
A.5	Out of Scope	[X] Present	6 exclusions
A.6	Technologies	[X] Present	Tech stack listed
A.7	Delivery Location	[X] Present	GitHub repo
A.8	Quality Standards	[X] NEW	Quality checklist

Appendix B: Acceptance and Change Control

Section	Content	Status	Notes
B.1	Acceptance Process	[X] Enhanced	5-step workflow
B.2	Acceptance Criteria	[X] Present	5 criteria
B.3	Rejection Requirements	[X] ENHANCED	Invalid rejections defined
B.4	Deemed Acceptance	[X] Present	Clear trigger
B.5	Defect Definition	[X] NEW	Detailed definition
B.6	Warranty	[X] ENHANCED	Platform dependency clause
B.7	Change Control	[X] Present	Process and fees
B.8	Multiple Review Cycles	[X] NEW	Limits on revision rounds
B.9	Payment Triggers	[X] NEW	Invoice on delivery notice

Appendix C: Client Responsibilities

Section	Content	Status	Notes
C.1	Client Responsibilities	[X] Present	8 responsibilities
C.2	Designated PO	[X] NEW	Product Owner authority
C.3	Communication	[X] ENHANCED	Response times, escalation
C.4	Client Materials	[X] NEW	Definition and treatment
C.5	Access Requirements	[X] Present	Listed
C.6	Assumptions	[X] Present	With impact if incorrect
C.7	Impact of Delays	[X] ENHANCED	Material delays defined
C.8	Failure Triggers	[X] NEW	Schedule, Change Order, Deemed Acceptance
C.9	Client Cooperation	[X] NEW	Non-interference clause
C.10	Dependency Verification	[X] NEW	Pre-kickoff checklist

Appendix D: IP and OSS

Section	Content	Status	Notes
D.1	IP Model	[X] Present	Provider owns, license to Client
D.2	Client License	[X] ENHANCED	Comprehensive terms
D.3	Background IP	[X] ENHANCED	Clear separation
D.4	Provider Reuse	[X] Present	Reuse rights
D.5	Work Product	[X] NEW	Definition
D.6	Third-Party	[X] Present	Subject to third-party terms
D.7	OSS Policy	[X] ENHANCED	Approved/prohibited licenses
D.8	OSS Disclaimer	[X] NEW	Vulnerability disclaimer
D.9	License on Payment	[X] NEW	Conditional grant
D.10	IP Representations	[X] NEW	Provider representations

Appendix E: Security Boundaries

Section	Content	Status	Notes
E.1	Security Posture	[X] Present	Developer tools, not security products
E.2	Security Scope	[X] Present	Included vs not included
E.3	Security Disclaimers	[X] Present	6 disclaimers
E.4	Shared Responsibility	[X] Present	Clear division
E.5	Data Handling	[X] Present	During and after engagement
E.6	Compliance	[X] Present	No certifications included
E.7	Incident Notification	[X] Present	24-hour notification
E.8	Security Acknowledgment	[X] NEW	Client acknowledgment
E.9	Best Practices	[X] NEW	Recommendations

Appendix F: Support and SLA

Section	Content	Status	Notes
F.1	Support Tiers	[X] Present	4 tiers
F.2	Warranty Support	[X] Present	Included services
F.3	Basic Maintenance	[X] Present	$4,000/month
F.4	Premium Maintenance	[X] ENHANCED	$8,000/month, more services
F.5	Ad-Hoc Support	[X] Present	Hourly rates

Section	Content	Status	Notes
F.6	Severity Definitions	[X] Present	Critical/High/Normal
F.7	Support Process	[X] Present	Submission and response
F.8	Escalation	[X] NEW	Escalation path
F.9	Maintenance Terms	[X] Present	Term, billing, termination
F.10	Out-of-Scope	[X] Present	Exclusions
F.11	Service Credits	[X] NEW	Premium tier credits

Appendix G: Rate Card

Section	Content	Status	Notes
G.1	Base Pricing	[X] Present	$100,000 total
G.2	Add-On Services	[X] Present	13 add-ons
G.3	Change Order Fees	[X] ENHANCED	Detailed fee schedule
G.4	Hourly Rates	[X] Present	Standard rates
G.5	Invoicing Terms	[X] Present	NET 5
G.6	Pricing Notes	[X] Present	Currency, validity
G.7	Payment Methods	[X] Present	Wire, ACH only
G.8	Expense Policy	[X] NEW	Approval thresholds
G.9	Volume Discounts	[X] NEW	Multi-engagement discounts

Appendix H: Supplemental Legal Terms

Section	Content	Status	Notes
H.1	Purpose	[X] Present	Supplemental terms
H.2	Notice Procedures	[X] NEW	Formal notice process
H.3	Insurance	[X] NEW	For reference
H.4	Export Control	[X] NEW	Compliance requirement
H.5	Anti-Corruption	[X] NEW	FCPA compliance
H.6	Records and Audit	[X] NEW	Audit rights
H.7	Subcontracting	[X] NEW	Provider's rights
H.8	Relationship	[X] Present	Independent contractor
H.9	Equitable Relief	[X] NEW	No bond required
H.10	Construction	[X] Present	Interpretation rules
H.11	Counterparts	[X] Present	Electronic signatures
H.12	Amendments	[X] Present	No amendments
H.13	Entire Agreement	[X] Present	Confirmation

Appendix I: Marketing and Publicity

Section	Content	Status	Notes
I.1	Overview	[X] Present	Prior approval required
I.2	Permitted Without Approval	[X] Present	Generic descriptions
I.3	Requires Approval	[X] ENHANCED	Comprehensive list
I.4	Prohibited	[X] NEW	Strict prohibitions
I.5	Approval Process	[X] NEW	10-day response
I.6	Logo/Trademark Usage	[X] NEW	Guidelines
I.7	Press Releases	[X] NEW	Joint and unilateral
I.8	Social Media	[X] NEW	Guidelines
I.9	Portfolio Usage	[X] Present	Rights defined
I.10	Awards	[X] NEW	Guidelines
I.11	Termination Effects	[X] Present	Survival
I.12	Contacts	[X] Present	Contact information

Appendix J: Equity Incentive Terms

Section	Content	Status	Notes
Notice	Non-Binding	[X] NEW	Clear non-binding status
J.1	Purpose	[X] Present	Alignment purpose
J.2	Grant Summary	[X] Present	0.2% FD, 24-month vesting
J.3	Grant Deadline	[X] Present	30 days
J.4	Fallback Mechanism	[X] ENHANCED	Clear cash conversion process
J.5	Acceleration	[X] Present	Single trigger 25%
J.6	MFN Clause	[X] Present	90-day MFN
J.7	Separation	[X] ENHANCED	Clear independence from delivery
J.8	Suspension Rights	[X] ENHANCED	Limited to non-essential only
J.9	Tax Considerations	[X] NEW	Provider's responsibility
J.10	Documentation	[X] Present	Required documents
J.11	Securities Compliance	[X] NEW	Representations and restrictions

Section	Content	Status	Notes
J.12	Contacts	[X] Present	Contact information

K.3 COMPLIANCE CHECKLIST

#	Requirement	Status	Evidence
1	No unverifiable claims	[X]	Removed "will improve X by Y" language
2	Definitions used consistently	[X]	20 terms defined in 1
3	SOW has objective acceptance criteria	[X]	Appendix A with criteria per skill
4	Evidence bundle required	[X]	Exhibit A.1
5	Change control explicit	[X]	Appendix B B.7
6	Late fees non-zero	[X]	1.5%/month (5.5)
7	Stop-work clause clear	[X]	5.8 with cure period
8	IP posture consistent	[X]	Provider owns throughout
9	Indemnity matches liability	[X]	9 matches 8 carve-outs
10	Warranty vs SLA separated	[X]	7 vs Appendix F
11	Confidentiality complete	[X]	10 with trade secrets, compelled disclosure
12	Non-solicitation included	[X]	12 - 12 months
13	Termination mechanics complete	[X]	13 with payment, handoff, survival
14	Professional formatting	[X]	Separate appendices, consistent numbering

---

K.4 VERSION HISTORY

Version	Date	Changes
7.0	2026-01-10	Initial proposal
7.1	2026-01-12	Added equity alignment, TBD validation
7.2	2026-01-14	Cash-only payment, $100K total
7.3	2026-01-16	Full legal upgrade per mega-prompt

End of Appendix K

Agreement No. LIT-2026-001 | Version 7.3

EXHIBIT A.1: SKILL DELIVERABLE STANDARD

Agreement No.: LIT-2026-001 **Version:** 7.3 **Date:** January 16, 2026

This Exhibit is incorporated into and forms part of the Services Agreement between Intent Solutions and Lit Protocol dated January 16, 2026.

A1.1 PURPOSE

This Exhibit defines the **Skill Deliverable Standard** that all Skills must conform to. Each Skill delivered under this Agreement shall meet the requirements set forth herein.

A1.2 DIRECTORY STRUCTURE

Each Skill shall be delivered in the following directory structure:

```
skill-name/
|---- SKILL.md                    # Required: Skill documentation
|---- README.md                   # Required: Quick start guide
|---- skill.yaml                  # Required: Skill configuration
|---- NOTICE                      # Required: Third-party attributions
|---- src/                        # Skill source code
|     |---- index.ts               # Main entry point
|     `---- [additional modules]
|---- tests/                      # Test files
|     |---- unit/                  # Unit tests
|     `---- integration/           # Integration tests (if applicable)
|---- examples/                   # Usage examples
|     |---- example-1.md           # At least 2 examples required
|     `---- example-2.md
`---- evidence/                   # Evidence Bundle (per phase)
    |---- checklist.md           # Acceptance checklist
    |---- test-results.md        # Test output summary
    `---- [additional evidence]
```

A1.3 NAMING CONVENTIONS

Skill Directory Name

- Lowercase with hyphens
- Descriptive of skill function
- Example: `pkp-wallet-setup`, `lit-action-builder`

File Names

- Lowercase with hyphens for markdown

- camelCase for TypeScript/JavaScript
- Example: `session-manager.ts`, `usage-example.md`

A1.4 SKILL.md REQUIREMENTS

Each SKILL.md file shall include:

Required Sections

Section	Description
Title	Skill name as H1 heading
Description	1-2 paragraph description of skill purpose
Prerequisites	Required setup, dependencies, access
Usage	How to invoke the skill
Parameters	Input parameters with types and descriptions
Output	Expected output format
Examples	At least 2 usage examples
Failure Modes	Known failure scenarios and handling
Limitations	Scope limitations and disclaimers
Version	Skill version and compatibility

Example SKILL.md Structure

```
# PKP Wallet Setup

## Description
Creates and configures Programmable Key Pairs (PKPs) for Lit Protocol...

## Prerequisites
- Lit Protocol TypeScript SDK v6+
- Claude Code v1.0+
- Testnet access

## Usage
Invoke with: "Create a PKP wallet for [use case]"

## Parameters
| Parameter | Type | Required | Description |
|-----------|------|----------|-------------|
| authMethod | string | Yes | Authentication method to bind |
| ...

## Output
Returns TypeScript code that creates a PKP wallet...

## Examples
```

```
### Example 1: Basic PKP Creation
...

### Example 2: PKP with Custom Auth
...

## Failure Modes
| Scenario | Behavior |
|----------|----------|
| Invalid auth method | Returns error with valid options |
| ...

## Limitations
- This skill generates code patterns, not runtime execution
- Security review recommended before production use

## Version
- Skill Version: 1.0.0
- Lit SDK Compatibility: v6.0.0+
- Claude Code Compatibility: v1.0.0+
```

A1.5 README.md REQUIREMENTS

README.md provides a quick start guide:

Required Content

Section	Description
Title	Skill name
One-Line Description	Brief description
Quick Start	Minimal steps to use
Links	Link to full SKILL.md

Example README.md

```
# PKP Wallet Setup

Create and configure Programmable Key Pairs for Lit Protocol.

## Quick Start

1. Open Claude Code in a Lit Protocol project
2. Say: "Create a PKP wallet with Google OAuth"
3. Follow the generated code instructions

## Documentation
```

```
See [SKILL.md](./SKILL.md) for full documentation.
```

A1.6 SKILL.YAML REQUIREMENTS

Configuration file for skill metadata:

```yaml
name: pkp-wallet-setup
version: 1.0.0
description: Create and configure Programmable Key Pairs
author: Intent Solutions
license: Proprietary

compatibility:
  lit_sdk: ">=6.0.0"
  claude_code: ">=1.0.0"

triggers:
  - "create pkp"
  - "pkp wallet"
  - "programmable key pair"

dependencies:
  - "@lit-protocol/lit-node-client"
  - "@lit-protocol/auth-helpers"

tags:
  - lit-protocol
  - pkp
  - wallet
  - authentication
```

A1.7 NOTICE FILE REQUIREMENTS

NOTICE file lists all third-party components:

Required Format

```
NOTICE

This skill includes the following third-party components:

1. @lit-protocol/lit-node-client
   License: MIT
   Copyright (c) Lit Protocol
```

```
2. @lit-protocol/auth-helpers
   License: Apache 2.0
   Copyright (c) Lit Protocol

[Additional components...]

---

Generated by Intent Solutions
Agreement: LIT-2026-001
```

A1.8 TEST REQUIREMENTS

Unit Tests

Requirement	Description
Coverage	Core logic covered
Naming	Descriptive test names
Isolation	No external dependencies
Output	Pass/fail with clear messages

Test Output Format

```
SKILL TEST RESULTS
==================
Skill: pkp-wallet-setup
Date: 2026-01-20
Environment: Claude Code v1.0.0, Node v20.x

Unit Tests: 12/12 passed
- test_basic_pkp_creation: PASS
- test_oauth_integration: PASS
- test_invalid_auth_method: PASS
[...]

Integration Tests: 3/3 passed (if applicable)
- test_testnet_deployment: PASS
[...]

Linting: 0 errors, 0 warnings
```

A1.9 EXAMPLES REQUIREMENTS

Minimum Examples

At least **2 distinct examples** per skill.

Example Structure

Element	Required
Title	Yes
Description	Yes
Input	Yes
Expected Output	Yes
Explanation	Recommended

Example Format

```
# Example 1: Basic PKP Creation

## Description
Create a simple PKP wallet with default settings.

## Input
"Create a PKP wallet for my dApp"

## Expected Output
[Code block showing generated TypeScript]

## Explanation
This example demonstrates the basic usage of the skill...
```

A1.10 EVIDENCE BUNDLE REQUIREMENTS

Each Phase delivery includes an Evidence Bundle in the `/evidence` directory.

Required Evidence

Item	Description	Format
Acceptance Checklist	Completed checklist	Markdown
Test Results	Test output summary	Markdown/Text
Dependency Versions	Locked versions used	JSON/YAML
Changelog	Changes in this delivery	Markdown

Optional Evidence (If Applicable)

Item	Description	Format
Screenshots	UI/output screenshots	PNG/JPG
CI Links	Links to CI runs	URL list
Performance Data	Timing/resource data	JSON

Acceptance Checklist Format

```
# Acceptance Checklist: Phase 1

## Skills Delivered
- [x] PKP Wallet Setup
- [x] Lit Action Builder
- [x] Session Signature Manager
- [x] Auth Method Configuration
- [x] Access Control Conditions
- [x] Encrypt/Decrypt Workflows

## Quality Standards
- [x] All skills have SKILL.md
- [x] All skills have README.md
- [x] All skills have skill.yaml
- [x] All skills have NOTICE file
- [x] All skills have 2+ examples
- [x] All unit tests pass
- [x] No critical linting errors
- [x] Documentation complete

## Acceptance Criteria (per skill)
### PKP Wallet Setup
- [x] Generates working PKP wallet configuration code
- [x] Supports multiple auth methods
- [x] Includes error handling
- [x] Documentation accurate

[Repeat for each skill...]

## Sign-off

A1.11 CODE QUALITY STANDARDS

Style Guidelines

- Follow Claude Code skill conventions
- Consistent formatting
- Clear variable names
- Appropriate comments

Linting Requirements

- No critical errors

- No high-severity warnings
- Warnings documented if intentional

Documentation in Code

- JSDoc/TSDoc for public functions
- Inline comments for complex logic
- Type annotations (TypeScript)

A1.12 COMPATIBILITY REQUIREMENTS

Supported Environment

Component	Version
Lit Protocol TypeScript SDK	v6.0.0 or later
Claude Code	v1.0.0 or later
Node.js	v18.x or later
TypeScript	v5.x or later

Compatibility Statement

Each skill includes a compatibility statement in SKILL.md and skill.yaml.

Breaking Changes

If a skill requires a specific SDK version: - Document in SKILL.md - Note in skill.yaml compatibility section - Include in Evidence Bundle

---

A1.13 SECURITY CONSIDERATIONS

Security-Marked Skills

Skills marked with * in Appendix A include additional requirements:

Requirement	Description
Security Disclaimer	Prominent disclaimer in SKILL.md
Limitation Section	Clear security limitations
Recommendation	Recommend professional audit

All Skills

- No hardcoded credentials
- No logging of sensitive data
- Input validation patterns
- Error handling without leaking information

A1.14 DELIVERABLE VERIFICATION

Self-Verification Checklist

Before submission, verify:

```
## Pre-Submission Checklist

### Structure
- [ ] Directory structure matches A1.2
- [ ] All required files present
- [ ] Naming conventions followed

### Documentation
- [ ] SKILL.md complete with all sections
- [ ] README.md provides quick start
- [ ] skill.yaml populated correctly
- [ ] NOTICE file lists all dependencies
- [ ] 2+ examples provided

### Quality
- [ ] Unit tests pass
- [ ] Linting passes (no critical errors)
- [ ] Code formatted consistently
- [ ] Types properly annotated

### Evidence
- [ ] Acceptance checklist completed
- [ ] Test results documented
- [ ] Dependencies locked
- [ ] Changelog prepared
```
